Powerful HD Processor

A rich HD display requires a powerful processor to drive it. The TI OMAP4470 processor in the Kindle Fire HD 8.9" has 40% more memory bandwidth than Tegra 3, enabling faster web browser JavaScript performance. And Kindle Fire HD 8.9" has an innovative SGX544 3D graphics core that can process over 32 billion floating-point operations per second, so even graphically intensive games run smoothly and render stunning scenery. We also tuned the graphics pipeline and touch handling software to eliminate delays between when you touch the screen and when the application responds. This means the home screen scrolls more smoothly, videos start playing faster, and games respond nearly instantaneously.

Plenty of Storage for HD Co

High definition content is constantly larger. For example, on average, a movie is 5GB/HR, and an HD movie i Because of this, Kindle Fire HD 8.9 multiple storage options starting w 16GB, as well as free, unlimited clo storage for your Amazon content.

Windows® Fax and Scan

Get going to scan and fax your documents

FAX. You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN. After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the top-left of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want, preview, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a larger version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

PrayerSong Prayer of the Day for February 3, 2010

The yoke of ministry is not a symbol of authority, but a reminder of humility. To serve God is to walk among people as a reminder that God is in the world, that obedience is possible and, indeed, even desirable. "Ministry is Jesus Christ expressing his life through us." James Earhagen wrote. Carrying the cross, bearing the signs of traditism, expressing love, gratitude and praise for God. If there is shame, we bear it gladly. If there is loneliness, we experience it in the company of Jesus. The yoke reminds us of our vow and covenant with God to be a servant - often giving pause before speaking to provide an opportunity for God's wisdom and the peace of Christ to precede anything we may want to say. Thank you, Lord Jesus, for being ahead, around, behind, and beside everything we think, say, and do. Amen

RHODE ISLAND INTERNATIONAL REGISTRATION PLAN (IRP) OFFICE
NEW AND RENEWING IRP FLEET POINTERS

The following are key points to remember:

The upcoming registration year is 2012 (for credentials valid during the period June 1, 2011 through May 31, 2012). The following apply to renewals:

- For actual miles, you are to use the miles accumulated by your fleet(s) during the mileage reporting period July 1, 2009 through June 30, 2010
- If you don't have actual miles for a jurisdiction during the mileage reporting period, then you may estimate (see next pages).
- If yours is a completely new fleet and you don't have actual miles for at least the three months April 1, 2010 through June 30, 2010 then you should estimate and will not be assessed a penalty
- Under most circumstances, if you estimate miles for consecutive years you will be assessed higher fees than if you report your correct, actual miles
- Under most circumstances, if you only operate within Rhode Island then we cannot allow you to renew under IRP. You must go to the DMV and get commercial plates

Rhode Island has a vigorous IRP audit procedure, as required by IRP. The focus of the audits is to ensure that the miles reported are supported by your detailed records. Please be advised that you must retain records for the current year and at least three prior years. We are including the Individual Vehicle Distance Record form (IVDR), which MUST be signed and returned along with your completed renewal application packet.

Rhode Island is in the process of becoming certified under a federal program that links registrations to safety inspections. Therefore, you must have an active USDOT number and your MCS-150 that has been updated within the past year.

The USDOT Number will still be collected for "motor carriers", e.g. companies with company-owned vehicles. A "non-motor carrier" vehicle registrant should be using the USDOT of the motor carrier it is leased to.

Important changes to your plan coverage

We're committed to your well-being. And we want you to have the information you need to get services and use your benefits. So take a moment to review the changes we've made to your plan. They'll take effect January 1, 2015.

What you'll find in this packet

The 2015 Annual Notice of Changes (ANOC) and Evidence of Coverage (EOC) are guides to using your benefits. The formulary is a listing of the drugs your plan covers.

- **ANOC:** The ANOC tells you the differences between your current plan benefits and the benefits you'll have beginning January 1, 2015. It's important to review these changes now so you'll know what to expect next year.
- **EOC:** The EOC gives you detailed information about your Medicare coverage from January 1 – December 31, 2015. It explains how to get coverage for the services you need. **It's an important legal document—make sure to keep it in a safe place.**
- Formulary: The formulary shows generic and brand name drugs covered by your plan. You should check to see if the drugs you take are covered. And see if there are quantity limits or if prior authorization or step therapy is required. To help you do this, we added a chart at the end of this letter. The chart allows you to list the drugs you take and make notes from the formulary.

Other things you should know

Here are some other things to keep in mind as you look over your documents:

- You can view your claims and benefit information online anytime. Just go to My Online Services at member.aetna.com and register with your member ID. If you have an iPhone® or Android™ smartphone, you can download and use our new mobile app, too.

DIFFICULTY	SUGGESTIONS
Printer difficulties	
The machine does not print.	Please make sure: • The machine is plugged in and the power switch turned On. (See the Quick Setup Guide.) —OR— • The toner cartridge and drum unit are installed properly. (See *Replacing the drum unit (DR-350)* on page 11-27.) —OR— • The interface cable is securely connected between the machine and computer. (See the Quick Setup Guide.) —OR— • The correct printer driver has been installed and selected. —OR— • Check to see if the LCD is showing an error message. (See *Error messages* on page 11-1.) —OR— • The machine is online. Click **Start** and then **Printers and Faxes**. Right-click "Brother MFC-XXXX" (where XXXX is your model name). Make sure that "Use Printer Offline" is unchecked.
The machine prints unexpectedly or it prints garbage	(For FAX-2820, FAX-2910 and MFC-7220) When you turn off the machine's power switch its memory will be cleared. To check whether the machine has received data in its memory see *Checking if the machine has faxes in its memory* on page 11-8. If there are faxes you need to save them before following the suggestions below. (See *Forwarding faxes to another fax machine* on page 11-8 or *Transferring faxes to your PC (MFC-7320 and MFC-7225N only)* on page 11-8.) Turn off the machine's power switch and then turn it on again. If the error message continues, leave the machine for several minutes and try it again. Check the settings in your application software to make sure it is set up to work with your machine. (For FAX-2820 and MFC-7220N) Turn off the machine's power switch and then turn it on again. If the error message continues, leave the machine for several minutes and then try it again. (The machine will be turned off for up to 4 days without losing faxes stored in the memory.) Check the settings in your application software to make sure it is set up to work with your machine.
The machine prints first couple of pages correctly, then some certain have text missing	Your computer is not recognizing the machine's input buffer full signal. Please make sure you connect the machine's cable correctly. (See the Quick Setup Guide.)
The machine cannot print full pages of a document.	Reduce the printing resolution. (See *Advanced* tab in Software User's Guide on the CD-ROM.) Reduce the complexity of your document and try again. Reduce the graphic quality or the number of font sizes within your application software.
My *connect* or *remark* appear when I view my document on the screen but do not appear when I print them.	Your machine can print 60 lines per page. The top two lines and bottom two lines are a restricted area that will not accept print. Adjust the top and bottom margins in your document to allow for this.

I Like SHEETROCKddd

This is a test sheet to test my Fax2Send setup. I'm sending it to Fax Toy. What an interestingly cool concept for a website. ^_^

I sure felt retro digging my modem out of storage today. Believe me... that brought back memories!

Title

Patient Name: ropfassz

Patient DOB: 01-01-1964

Medical Record Number: 142

Date Of Service: 07-24-2014

Procedure: Shockwave Lithotripsy

Surgeon: Otis Otley, PA

Patient DOB: 01-01-1964

Patient Name: ropfassz

Indications:

ropfassz is a 50 year old Female with a history of nephrolithiasis currently with a 0.5mm Upper pole renal stone. Nonsurgical Options for management were discussed with the patient. The risks, alternatives, procedure and expected outcomes for shockwave lithotripsy were discussed with the patient.

Risks including but not limited to infections, bleeding, hematoma, residual stone, recurrent stone, obstruction, need for further or additional procedures were discussed with the patient and they have asked me to proceed.

Procedure:

After appropriate General anesthesia was administered, the patient was positioned supine on the lithotripsy table. The stones were localized under fluoroscopy in both craniocaudal and anteroposterior views. A total of 253 were delivered to the 0.5 Upper pole renal.

Shockwaves were delivered at a rate of 235 and 235. There was excellent fragmentation of the 0.5 Upper pole renal. The patient was awakened from anesthesia and taken to the recovery room in stable condition.

Disposition: The patient is to follow up in 1 week.

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Revision Notes

Joni Sensel

Posted 23 Feb 2009 at 08 AM PST

Guest blogger Joni Sensel writes about cutting her story so much that two books became one. I read an ARC of this new novel and loved it — the novel revisions worked!

Why Cut Out Important Parts of a Novel?

Originally I thought my new middle-grade adventure THE FARWALKER'S QUEST would be two books of a trilogy in part because the first draft was 121 000 words.

Cut out 20 000 words. Nope. Among my agent's early feedback was that I needed to combine the two halves, amp up ages, and try to get it under 100 000 words. Once I managed that, my editor wanted it trimmed even farther. The final book is just under 83 000 words. Though I wouldn't have thought it possible when I started, I **cut more than 20% from the original** and saved the pace considerably in the process. I learned to rely on several techniques that go beyond the standard advice to slash adverbs or use one perfect descriptive rather than three. Even if you're not as long-winded as I am, cutting virtually always increases pace, and few stories suffer from too fast a pace.

6 Techniques for Cutting a Novel's Length

- **Use chapter breaks.** What can you leave out between chapters? THE *MARK OF THE HORSELORD* by Rosemary Sutcliff taught me a huge lesson. This favorite of mine makes huge leaps in story time between the end of one chapter and the start of the next. In some cases, she left out things I wanted to see. (But did I need to see them? Obviously not.) Generally, it worked well and kept the act on hopping. I20think we tend

Our Father, which art in heaven,
hallowed be thy name.
thy kingdom come.
thy will be done,
in earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation
but deliver us from evil
[For thine is the kingdom,
the power and the glory,
for ever and ever.]

Hola,

Solo quería disculparme por no ir a trabajar hoy tampoco, pero lo que pasa es que todavía estoy con un poco de catarro. En comparación a los días pasados, ya estoy bastante mejor, y pienso que para el próximo Martes, si ya voy a estar por allá sin ninguna otra falta!

Muchas gracias por su atención y por la paciencia que tienen para conmigo.

Hasta pronto,

Héctor

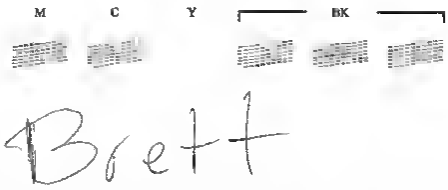
The Print Quality Check Sheet

Check that the dotted lines forming the four color blocks are all visible with no gaps.



This Brother Inkjet machine has been finely tuned to provide excellent, accurate and long lasting printed pages when using Genuine Brother Innobella(TM) ink.

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s)

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain offline 60 seconds
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC.

TRAVELERS

Welcome to Travelers!

As a new customer, we want to make things easy for you! You'll need to cancel your prior insurance policy. Because most insurers need written and signed notice of cancellation, we have attached the forms you can use for this purpose. We have filled in as much information as we could on the attached to hopefully make it a bit easier for you.

To complete the process, simply follow these easy steps:

1. Print the Cancellation Request and Confirmation form(s)
2. Complete the Cancellation Request Form.
   a. If blank, write in your prior insurance company's address. You can obtain their mailing address from your policy or bill
   b. If blank, write in the policy numbers that you had with your prior company.
   c. Sign the document
3. MAIL the completed Cancellation Request and Confirmation form(s) to your prior insurance company using the mailing address from your policy or bill

Should you have any questions about this process, please call us at 800-531-8718

Lamp Material Information Sheet

Material Safety Data Sheets (MSDS)
Information and Applicability

The Material Safety Data Sheet (MSDS) requirements of the Occupational Safety and Health Administration (OSHA) for chemicals are not applicable to manufactured articles such as lamps. No material contained in a lamp is released during normal use and operation.

The following information is provided as a service to our customers. The following Lamp Material Information Sheet contains applicable Material Safety Data Sheet information.

I Product Identification

GE Double-Ended or Pin-Based Quartz Halogen Lamps

GE Consumer & Industrial
Lighting
1975 Noble Road
Nela Park
Cleveland, OH 44112
(216) 266-2222

II Lamp Materials and Hazardous Ingredients

Glass & Metal
Double-ended or Pin based Quartz lamps are composed of a quartz glass envelope surrounding a tungsten wire filament. The bulb is filled with a bromine or iodine halogen gas. Double-ended or Pin-based quartz lamps have a ceramic base at one or both ends attached with high-temperature cement. The quartz glass envelope may be clear or diffuse. In addition to the tungsten lamp filament, either wires made from molybdenum, copper, iron, and/or nickel are used as support wires or for electrical connections.

III Health Concerns

Tungsten, molybdenum, copper, iron, and nickel are all considered hazardous chemicals, but because of their form or relatively low toxicity, do not present a hazard.

IV Disposal Concerns

TCLP
A Toxicity Characteristic Leaching Procedure (TCLP) test conducted on double-Ended or pin-based quartz halogen lamps would not cause the lamps to be classified as a hazardous waste.

Pasta for Pennies 2011

Dear Parent(e)

Your child's school will this year be supporting Olive Garden s 17th-annual Pasta for Pennies program benefiting The Leukemia & Lymphoma Society Pasta for Pennies is a Leukemia & Lymphoma Society School & Youth Program that takes place over a three-week period during the school year and encourages students to collect spare change to support the Society s mission to cure leukemia lymphoma myeloma and Hodgkin e disease and to improve the quality of life of patients and their families.

We see this as a tremendous opportunity for children to demonstrate their passion for supporting classmates and families in their local community They are learning at a young age how important and fulfilling community service can be

During our program we will be asking you and your child to please donate pennies nickels dimes and quarters or more to assist your child s class in their fundra sing efforts At the end of the three-week period the top fundraising class in each school will receive an Olive Garden Hospitalian! Lunch (pasta party) in their classroom

Through Pasta for Pennies the schools in your community last year together raised over 4 000 for the Tennessee Chapter of The Leukemia & Lymphoma Society That total was part of the record breaking $8 1 million raised nationally for the Society all of which funds blood cancer research and provides educat on and patient services We look forward to another year of extraordinary results for The Leukemia & Lymphoma Society thanks to the efforts of parents like you, your students faculty families and friends

Olive Garden The Leukemia & Lymphoma Society and your child s school thank you in advance for your support. For more information about Pasta for Pennies vis t www.schoolandyouth.org

Sincerely

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts, software and operating systems. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Cheesy Hasselback Potato Gratin

(/ recipes/1017724-cheesy-hasselback-potato-gratin)

By Emily Weinstein | Time About 2 hours | Yield 6 servings

Ingredients

3 ounces finely grated Gruyère or comté cheese

2 ounces finely grated Parmigiano-Reggiano

2 cups heavy cream

2 medium cloves garlic, minced

1 tablespoon fresh thyme leaves, roughly chopped

Kosher salt and black pepper

4 to 4 ½ pounds russet potatoes, peeled and sliced 1/8-inch thick on a mandoline slicer (7 to 8 medium, see note)

2 tablespoons unsalted butter

Preparation

Step 1

Adjust oven rack to middle position and heat oven to 400 degrees. Combine cheeses in a large bowl. Transfer 1/3 of cheese mixture to a separate bowl and set aside. Add cream, garlic and thyme to cheese mixture. Season generously with salt and pepper. Add potato slices and toss with your hands until every slice is coated with cream mixture, making sure to separate any slices that are sticking together to get the cream mixture in between them.

Step 2

Grease a 2-quart casserole dish with butter. Pick up a handful of potatoes, separating them into a neat stack, and lay them in the casserole dish with their edges aligned vertically. Continue placing potatoes in the dish, working around the perimeter and into the center until all the potatoes have been added. The potatoes should be very tightly packed. If necessary, slice an additional potato and coat with cream mixture, and add to casserole. Pour the excess cream/cheese mixture evenly over the potatoes until the mixture comes halfway up the sides of the casserole. You may not need all the excess liquid.

Step 3

Cover dish tightly with foil and transfer to the oven. Bake for 30 minutes. Remove foil and continue baking until the top is pale golden brown, about 30 minutes longer. Carefully remove from oven, sprinkle with remaining cheese, and return to oven. Bake until deep golden brown and crisp on top, about 30 minutes longer. Remove from oven, let rest for a few minutes, and serve.

Tip

Because of variation in the shape of potatoes, the amount of potato that will fit into a single casserole dish varies. Longer, thinner potatoes will fill a dish more than shorter, rounder potatoes. When purchasing potatoes, buy a few extra in order to fill the dish if necessary. Depending on exact shape and size of

Zombie Emergency Procedures

95% of all known zombies can be stopped by decapitation or destroying the brain. Aim your desperate, improvised weapons at the head and neck.

DO NOT SPLIT UP!
Someone WILL get killed, turn into a zombie and the next person to see them will go "Oh, it's my friend, I'll just turn my back and OH GOD WHY IS HE EATING MY BRAIN?!"

DO NOT USE FIRE
The only thing worse than undead hordes trying to eat your brain is undead hordes trying to eat your brain WHILE ON FIRE.

IMPORTANT INFORMATION FOR BANK DEPOSIT ACCOUNTS

Change of statement. Please call us in the telephone number listed on the front of this statement to let us about a change of address.

Register Agreement. When you receive your account you received a deposit agreement and the statement and agreed that your accounts would be governed by terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit accounts and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee statement which contain the current services of the terms and conditions of your account relationship, may be obtained at our banking centers.

Electronic Transfers. In case of errors or questions about your electronic transfers:
If you think your statement or receipt is wrong or if you need more information about an statement, receipt (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

Tell us your name and account number
(if applicable).
Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
Tell us the dollar amount in the disputed error

For consumer accounts used primarily for personal, family or household statement we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (20 business days if you are a Massachusetts customer) (20 business days if you are a new customer for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will recredit your account for the amount you think is in error so that you will have use of the money during the time it takes us to complete our investigation.

For other statements we investigate, and if we find we have made an error we credit your account as the window ion of our investigation.

Reporting Other Problems. You may examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of statement problems or unauthorized transactions within the time periods described in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less) we are not liable to you for any you agree not to make a claim against us for the problems or unauthorized transactions.

Direct Deposits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us in the telephone number listed on the front of this statement to find out if the deposit was made as determined.

Ring Time

How long (in seconds) the group of phones will ring before failing, and doing the options specified below. This is not related to the "hunt" ring strategy above, but is the total length of time a call will stay in the group before using the "Destination if no answer" selection.

Destination if no answer

This gives you a selection of things to do when the call exceeds the "Ring Time" specified above. Options may be added and removed from this list depending on the modules that are installed. See Destinations for more information.

Welcome to Windows® Fax and Scan

One place to send and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, on the toolbar, click the triangle next to **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want, and then click **Preview**.

Use the options on the toolbar to [illegible]. For more help with scanning, click the **Help** button on the toolbar.

Account holder or legally authorized person (Customer) agrees to purchase its natural gas until December 2015 from Michigan Natural Gas, LLC (MNG), a Michigan alternative gas supplier licensed by the Michigan Public Service Commission (MPSC). Customer understands that the gas under this contract will be delivered to Customer through the DTE Gas Company (DTE) distribution system and that DTE will remain responsible for gas emergencies, meter reading, and billing (except the Rate under this contract). Customer authorizes MNG to obtain billing, payment and usage history from DTE. This contract will continue on a month-to-month basis, cancellable at anytime without penalty after initial term expiration. Both Customer and MNG agree to abide by the rules and regulations of the Michigan Gas Customer Choice Program established by the MPSC.

2. Customer's Right to Cancel: If Customer terminates the contract after 30 days from the date of this contract and returns to DTE, Customer understands that Customer will be required to remain with DTE for the next 12 months or \$10 fee may apply if Customer has switched suppliers during the previous 12 months). Customer has the right to cancel within 30 days or the date of the first regular billing cycle, whichever is later. 30 days notice may be required for loss of load exemption.

3. Billing and Payment: Customer will continue to pay on a monthly bill from DTE in addition to the cost of the gas provided under the terms of this contract. The bill will include but not be limited to DTE's delivery and customer charges, taxes and fees (which will be charged by DTE regardless of whether or not Customer is enrolled in the Michigan Gas Customer Choice program). Customer agrees to remit payment in full to DTE per the Michigan Gas Customer Choice Program rules and service rules.

4. Fixed Rate: The fixed rate will be \$0.49 per mcf

5. Changes in Consumption: Customer agrees to notify MNG of any material changes in anticipated consumption of natural gas under this contract.

6. Term: The term of this contract shall commence with the next billing cycle by DTE and shall continue for an 18 month the December 2014 billing cycle. After the initial term, unless terminated by either party, and with at least thirty (30) days notice to Customer by MNG, the contract shall continue on a month-to-month basis and the Customer shall be automatically converted to MNG's Variable Price. This price will vary month-to-month and will be calculated as a weighted average cost of gas (WACOG) consisting of a supply portfolio of purchases that all admin structure fees. For example package 1 5000 mcf @ 5.00 package 2 5000 @ 5.14 mcf, would produce a WACOG of 5.065. Customer understands that there may be delays in the start of the term and agrees not to hold MNG responsible for any such delays.

7. Regulatory: Customer understands that the MPSC may change the rules and regulations of the Michigan Gas Customer Choice Program and in that event, MNG reserves the right to modify this contract with 30 days notice and concurrence by Customer.

8. Limitation of Liability: MNG will not be responsible for any type of exemplary, punitive, special, and incidental damages which accrue arising out of or relating to this contract and the remedy in any suit or claim brought against MNG shall be limited to direct actual damages. MNG makes no warranties or representations other than those expressly made in this contract.

9. Force Majeure: MNG will not be responsible for delivering gas to customers in the event of circumstance beyond its control, which include acts of God, acts of terrorism, orders, rules and regulations, or the act or of any court or governmental authority in the case of such an event, MNG may at its sole option adjust the contract in whole or in part determine the Rate and continue to provide service to Customer upon acceptance by the Customer.

10. Entire Contract: This contract constitutes the entire contract between Customer and Michigan Natural Gas LLC and supersedes all prior written and verbal contracts and representations made with respect to the terms and conditions contained herein.

11 Customer Services

MNG can be reached at 888-944-8424 during normal business hours or may be reached at info@mich.gannalgroupllc.com. Any written notices may be sent to Customer Service, Michigan Natural Gas, LLC 2723 South State St Suite 150 PMB 218 Ann Arbor Michigan 48104.

Walmart Canada and four of its senior managers face 174 charges under the Public Health Act related to the sale of food contaminated during a wildfire that engulfed Fort McMurray, Alta., last May

A 31 page charge sheet lists the sale of various food items ranging from chocolate bars and nacho chips to pasta, breakfast cereal bacon and cheese. The charges, filed by Alberta Health Services, state that Walmart Canada failed to ensure that food that had been contaminated or was unfit for human consumption was not stocked or sold at its outlet in downtown Fort McMurray

Four of the charges allege that Walmart lied to public health inspectors by saying it was not selling food that had been contaminated during the fire.

Court documents show the alleged violations occurred at the Walmart outlet on Hospital Street between May 24 and May 29, 2016

Prior to allowing residents to re-enter the city, municipal and health officials repeatedly advised residents and businesses to throw out any food products other than those stored safely in cans and jars.

"I think the most alarming thing is the actual number of violations," said Keith Warriner, a food safety specialist at the University of Guelph.

"It's surprising that such a retailer like Walmart would have been open to these charges, given that they should have been proactive in disposing of the goods."

The four people charged are: Darren Kenyon, Sean Kenyon, the Walmart store manager; Michelle Payne, Walmart Canada's senior manager of food safety and Dale Snowden, the director of disaster and response and recovery for Walmart Stores Inc.

A message from the Director, U.S. Census Bureau

About two weeks ago, the U.S. Census Bureau sent instructions for completing the American Community Survey to your address. We asked you to help us with this very important survey by completing it online. But we have not received your response yet.

If you have already completed the survey, thank you very much. If you have not, please complete this survey soon using ONE of the following two options.

Option 1: Go to **https://respond.census.gov/acs** to complete the survey online.
Option 2: Fill out and mail back the enclosed questionnaire.

This survey is so important that a Census Bureau representative may attempt to contact you by telephone or personal visit if we do not receive your response.

The information collected in this survey will help decide where new schools, hospitals, and fire stations are needed. The information also is used to develop programs to reduce traffic congestion, provide job training, and plan for the health care needs of the elderly.

The Census Bureau chose your address, not you personally, as part of a randomly selected sample. You are required by U.S. law to respond to this survey. The Census Bureau is required by U.S. law to keep your answers confidential. The enclosed brochure answers frequently asked questions about the survey.

If you need help completing the survey, please use the enclosed guide or call our toll-free number (1-800-354-7271).

Thank you.

Sincerely,

John H. Thompson
Director

a star. If the `mciteplus` package is not installed, the standard bibliography tools will still work but starred references will be ignored. Individual references can be referred to using `\mcitesubref{ref. 7.c}`.

The class also handles notes to be added to the bibliography. These should be given in place in the document.[a] As with citations, the text should be placed before punctuation. A note is also generated if a citation has an optional note. This assumes that the whole work has already been cited; odd numbering will result if this is not the case.[b]

Floats

New float types are automatically set up by the class file. The means graphics are included as follows (Scheme 1). As illustrated, the float is "here" if possible.

Your scheme graphic would go here. eps format
for LaTeX or .pdf (or .png) for pdfLaTeX.
ChemDraw files are best saved as .cpa files.
these can be scaled without loss of quality, and can be
converted to .pdf files easily using eps2pdf.

Scheme 1. An example scheme

As well as the standard float types `tabla`
and `figura`, the class also recognises
`achema`, `chart` and `graph`.

Figure 1. An example figure

Charts, figures and schemes do not necessarily have to be labelled or captioned. However tables should always have a title. It is possible to include a number and label for a graphic without any title, using an empty argument to the `\caption` macro.

The use of the different floating environments is not required, but it is intended to make document preparation easier for authors. In general, you should place your graphics where they make logical sense; the production process will move them if needed.

The City Slept: the

Welcome to Egg Radio

Egg Radio is an Internet radio station that plays an eclectic mix of rock, alternative classic new wave, ska and all sorts of other things that should be on real radio (but aren't).

If you listened to "alternative" music when there really was such a thing, then you've come to the right place. The Cure, Morrissey, The B-52s, They Might Be Giants, Pinetop Jr., XTC and Depeche Mode were bands that the weird kids listened to. Were you a weird kid?

So were we.

But just because we know good music doesn't mean have to be locked into a teeny tiny alternative playlist. We're smart. We know that good music occurs in all kinds of formats.

We've mixed great, classic alternative music with modern rock ska mainstream rock and few surprises to create a station that is the perfect

Windows® Fax and Scan

[illegible]

[illegible]

Before you can send and receive faxes, you must connect your computer to a modem and set up a fax account. You can also print a cover page to send with your faxes.

Set up a fax account

1. Connect a phone line to your computer.

   If your computer has an external modem, connect one end of the phone's line cord to the modem and the other end to your wall jack.

2. On the taskbar, click Start.

3. Click All Programs, click Windows Fax and Scan, and then click New Fax. If you're prompted for an administrator password or confirmation, type the password or provide confirmation.

To connect to a fax server instead of a modem, contact your server administrator. You can find more information about this in the Help and Support Center.

Scan, fax, or e-mail a document or picture

Using Windows Fax and Scan, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also send a scanned document or picture as a fax or e-mail.

Scan a new item

1. Put the item you want to scan in the scanner, such as a flatbed scanner that can scan multiple pages automatically, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, on the toolbar, click New Scan.

3. Click the scanner, click New Scan.

4. Select the scanning settings you want, and then click Scan.

To view more information about scanning, click Help, click Windows Help and Support, and then click the Help button on the toolbar.

SEARS SUBMERSIBLE PUMP

GENERAL INSTRUCTIONS

Important Safety Notice – This Sears Pump must be connected to a properly grounded 115 volt AC 60 cycle, three prong outlet. If an extension cord is used it must be a three wire cord and it also must be connected to the properly grounded outlet.

The pump must never be allowed to run dry. Make sure that water or liquid is actually circulating whenever the pump is plugged in.

Your Sears Pump must be protected against possible jamming by preventing any foreign bodies (rocks shells leaves etc.) from entering the inlet. For this purpose a filter to be attached to the inlet of the pump has been included. CLEAN THIS FILTER REGULARLY

When starting the Sears Pump for the first time, plug in and unplug pump at 15 second intervals until liquid flows correctly. Pump must be submerged or mounted below water level.

WINTER STORAGE – Drain and remove pump and take it in the house for winter storage.

SEARS PUMP SPECIFICATIONS

Motor runs in oil bath – super quiet, needs no lubrication
6' neoprene grounded cord, oil and waterproof

GUARANTEE

This Sears Pump is guaranteed against defects in material and workmanship. If within one (1) year from date of sale a defect occurs simply return the pump to us and we will at our option either repair or replace it, free of charge.

Failure to follow the above instructions voids this guarantee.

The Declaration of Independence: A Transcription

printer-friendly version ►

IN CONGRESS, July 4, 1776.

The unanimous Declaration of the thirteen united States of America,

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.--That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, --That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to

Cranbrooke Village

June 22, 2011

Dear Neighbour

Options for Homes Non-Profit Corporation will be building a new condominium community in the Bathurst and Lawrence neighbourhood. **Already, 45% of the suites are sold!** On behalf of all of the purchasers to date, we invite you to become an owner at Cranbrooke Village.

Options developments have been providing quality, cost-effective homes for first-time home buyers, seniors and young families for over 15 years. Built by Deltera, the construction arm for Tridel, Cranbrooke Village is a 13-storey apartment-style condo that features suite sizes from bachelor to 5-bedrooms. The area is well served by public transit, and is within walking distance of a wide array of shops, restaurants, and services including the Lawrence Plaza. There are also a number of schools within the community, and Cranbrooke Village is close to many places of worship.

Amenities include a rooftop garden, multipurpose room with kitchen, library, lounge, daycare in the church next door, and board room. Options for Homes is also dedicated to providing our homeowners with an array of sustainability features including car sharing, heat recovery ventilation in the corridors, individual metering, and solar heating.

Cost prices at Cranbrooke Village start at $149,355. Plus, we will add a 13% payment-free loan that counts as part of your down payment. This will save you thousands and can help you own your first home or simply a new home sooner than you ever imagined.

We will be hosting a free Information Session on **Saturday, July 23, 2011,*** to learn more about Cranbrooke Village. Please visit us online at www.optionsforhomes.ca or call our office at 416.867.1301 ext. 221 **TODAY** to register as seating is limited.

Sincerely,

Michel Labbé

So the issue is of balance. Within the scope of your business and industry, you want to provide something in each newsletter that will be of interest to all the major players in your audience. By doing so, you will ensure that all your readers will continue to return to your newsletter edition after edition, to find that relevant article that they know is waiting for them.

The structure of this template

This template is designed as a two column table. It has a narrow column on the left with a colored background and a wide column on the right with no background color. The top portion of the newsletter before the first article consists of four rows that contain the masthead and date information.

Typically, tables have lines between the rows and columns. However, some tables in this template are formatted with hidden lines. To reveal the underlying rows and columns of a table, click **Show Gridlines** on the **Table** menu. This feature is especially helpful when you're not sure if your document has tables in it or not.

You can change the colors of rows and columns by clicking the area you want to change, clicking **Borders and Shading** on the **Format** menu, clicking the **Shading** tab, and then picking a color. At this point, you should specify whether you want the shading to apply to just the text, the selected paragraph(s), the whole cell, or the entire table.

The dark blue rule that appears over a headline is a characteristic of the headline's paragraph. It's formatted to have a dark blue rule above it. This and all the other characteristics of this paragraph are identified as a paragraph style named Heading 2. The first headline in this newsletter does not have a rule since it appears at the beginning of the newsletter. It's a style called Heading 1.

The Family: A Proclamation to the World

We, the First Presidency and the Council of the Twelve Apostles of The Church of Jesus Christ of Latter-day Saints, solemnly proclaim that marriage between a man and a woman is ordained of God and that the family is central to the Creator's plan for the eternal destiny of His children.

All human beings—male and female—are created in the image of God. Each is a beloved spirit son or daughter of heavenly parents, and, as such, each has a divine nature and destiny. Gender is an essential characteristic of individual premortal, mortal, and eternal identity and purpose.

In the premortal realm, spirit sons and daughters knew and worshiped God as their Eternal Father and accepted His plan by which His children could obtain a physical body and gain earthly experience to progress toward perfection and ultimately realize his or her divine destiny as an heir of eternal life. The divine plan of happiness enables family relationships to be perpetuated beyond the grave. Sacred ordinances and covenants available in holy temples make it possible for individuals to return to the presence of God and for families to be united eternally.

The first commandment that God gave to Adam and Eve pertained to their potential for parenthood as husband and wife. We declare that God's commandment for His children to multiply and replenish the earth remains in force. We further declare that God has commanded that the sacred powers of procreation are to be employed only between man and woman, lawfully wedded as husband and wife.

We declare the means by which mortal life is created to be divinely appointed. We affirm the sanctity of life and of its importance in God's eternal plan.

Husband and wife have a solemn responsibility to love and care for each other and for their children. "Children are an heritage of the Lord" (Psalms 127:3). Parents have a sacred duty to rear their children in love and righteousness, to provide for their physical and spiritual needs, to teach them to love and serve one another, to observe the commandments of God and to be law-abiding citizens wherever they live. Husbands and wives—mothers and fathers—will be held accountable before God for the discharge of these obligations.

The family is ordained of God. Marriage between man and woman is essential to His eternal plan. Children are entitled to birth within the bonds of matrimony, and to be reared by a father and a mother who honor marital vows with complete fidelity. Happiness in family life is most likely to be achieved when founded upon the teachings of the Lord Jesus Christ. Successful marriages and families are established and maintained on principles of faith, prayer, repentance, forgiveness, respect, love, compassion, work, and wholesome recreational activities. By divine design, fathers are to preside over their families in love and righteousness and are responsible to provide the necessities of life and protection for their families. Mothers are primarily responsible for the nurture of their children. In these sacred responsibilities, fathers and mothers are obligated to help one another as equal partners. Disability, death, or other circumstances may necessitate individual adaptation. Extended families should lend support when needed.

We warn that individuals who violate covenants of chastity, who abuse spouse or offspring, or who fail to fulfill family responsibilities will one day stand accountable before God. Further, we warn that the disintegration of the family will bring upon individuals, communities, and nations the calamities foretold by ancient and modern prophets.

We call upon responsible citizens and officers of government everywhere to promote those measures designed to maintain and strengthen the family as the fundamental unit of society.

SAFETY PRECAUTIONS

*** * * PLEASE READ BEFORE BURNING * * ***

- **INCINERATION** is a good option in cases where garbage or disposal options do not exist; yard waste clean dry unpainted/untreated wood, cardboard items & any clean non-recyclable paper products that are safe to burn
- **IMPORTANT NOTE**: Some state and local governments ban the burning of many waste materials and household garbage. It is important to contact your local city or county environmental office or state environmental agency to obtain necessary burning permits and to find out about local and state burning restrictions
- Only incinerate using fully assembled models **(including all seam screws)**
- All models are for outside use only
- Always locate your Burn Right Model in the center of a cleared area 40 feet in diameter including clear overhead
- Add burnable items so airflow is not restricted. Avoid stacking files and confidential papers tight together like a book.
- **Light incinerator, thermal shredder from the top**. Always incinerate with cover dome side up.
- Use hand & heavy gloves while handling the spark arrester cover to prevent burns
- Never burn in high winds
- Incinerator to be used for burning dry material, yard waste and non-recyclable paper products.
- Do not use flammable liquids.
- Do not burn pressurized containers, i.e. aerosol cans etc.
- Ashes may take 1 or more days to completely cool. Pour water on ashes to completely extinguish if you have to move your outdoor fireplace before the ashes have completely cooled
- For cooking we recommend the use natural hardwoods like Hickory, cherry, apple wood depending on the flavor you desire.
- Do not put burnt ashes in garden, dispose of as waste material. Note: Yard waste & wood ashes are ok.
- Keep children and pets away from unit. (Temperatures approximately 1500-1800 °F)
- Unit should not be left unattended
- While burning, your model must be level and tight to the ground and the Grill/Spark Arrester Grate must always be on to reduce the risk of fire spreading.
- Keep burnable materials away from exterior while burning
- Do not burn any type of battery
- These are only a few Safety Precautions, your Common Sense is required at all times

BURNING EFFICIENTLY IS IMPORTANT!

High TEMPERATURE burning is very important. To incinerate completely, eliminating smoke and smoldering airflow is required. Our patented design introduces the proper amount of air to burn efficiently. Never let the ashes build up so they touch the bottom of the angle plates. Ash removal is made easy. After the ashes have thoroughly cooled, simply tip the incinerator towards you and roll away from the pile of ashes. Remove the ashes and return your incinerator to its original burning position.

Maintenance

All models are 100% Stainless Steel but we recommend that you hose down your entire unit and clean your Grill/Spark Arrester Grate with a scrub pad before grilling

LESSON 2

EXERCISE 1: SLURP SWALLOW

We call this our special Slurp Swallow because it is so noisy. Ready?

1. Put your tongue tip up on your spot.
2. Bite your back teeth together. They should fit together like a puzzle.
3. Keep your lips wide apart, like a clown smiling.
4. Slurp!
5. Swallow.

After your first Slurp Swallow, your mouth may be dry. Take a tiny sip of water, just enough to moisten your mouth, between each Slurp Swallow.

As you do this exercise, your tongue must not push against your teeth. Try to feel a backward pull as you slurp.

Do 10 Slurp Swallows at each practice session.

Who is affected by this expanded approval?
This expanded approval of training of UC eligibility is made available to individuals who, prior to becoming unemployed, would be considered to be primarily a worker attached to the work force

How do I take advantage of this opportunity?
The first step is to decide what training you want to pursue and then apply for admission. You may want to view www.careeronestop.org or visit your local college, university or community college for help in identifying potential education or training opportunities. Contact information for Ohio's public colleges universities regional branch campuses and adult career centers that comprise the University System of Ohio can be found at www.uso.edu. Your local One-Stop Career Center can also assist you in career planning and help identify approved educational opportunities. To locate your nearest One-Stop call this toll free number: 1-877-US-2-JOBS (1-877-872-5627) or visit www.servicelocator.org

The next step is to apply for the Federal Pell Grant and/or other types of financial aid. The financial aid office at any local college, university community college or adult career center, as well as the Ohio Benefit Bank sites can assist you in applying for Federal Pell Grants, or other available financial aid programs. To find the Ohio Benefit Bank location nearest you call toll free 1-800-648-1176, or visit www.obb.ohio.gov. A free financial aid application (that will automatically determine your eligibility for Federal Pell Grant and (federal student loans) is also available at www.fafsa.ed.gov or by calling 1-800-4FEDAID. While you will need to report last year's income when applying initially, your college financial aid office can work with you to adjust your financial aid eligibility to more accurately reflect your current circumstances. The school may request additional information from you to help determine eligibility

Finally, let your unemployment processing center know that you are enrolling in training. This will help your unemployment benefits to continue without interruption if your training is approved. The phone number of your processing center can be found on nearly all notices you receive from the Office of Unemployment Compensation. You can also call toll free 1-877-644-6562 to obtain your processing center's phone number

What kinds of training can I enroll in?
- Any full-time program at any accredited college, university community college, adult career center, trade or technical school
- Any U.S. Department of Labor registered apprenticeship program
- Training associated with any of the following employment services programs.
  - Trade Adjustment Assistance
  - Ohio Bureau of Vocational Rehabilitation
  - Ohio Bureau of Services for the Visually Impaired
  - Workforce Investment Act (WIA)

You also may enroll in part-time training opportunities, however, please realize that you may still be required to seek work while participating in part-time education.

Where can I find more information about training?
The U.S. Departments of Education and Labor have created a single website, www.opportunity.gov where you can find helpful information on training and financial aid. The state website www.ohiolmi.com also contains helpful information on education, jobs and careers

Where can I find information on apprenticeship programs or high demand occupations?
To find available apprenticeship programs, go to http://jfs.ohio.gov/apprenticeship/. Information on high-demand careers in Ohio can be found at http://www.ohiolmi.com/jobs/careers.htm

Does the state have any other special programs that can help me?
Yes. For more information about other programs and services that may be available to you, go to http://ohiolmi.gov/ and click on "Job Seekers."

BATTERY CHARGING, CLEANING AND MAINTENANCE

General Information

The charger supplied with the electric vehicle solves the most common problems in charging. Undercharging and overcharging are prevented providing that the charger is allowed to shut off by itself. Also, all cells are automatically given an equalization charge at low current, which prolongs battery life. **Batteries should never be left in a discharged state**, as this too, affects the internal components and can reduce the capacity of the battery. The batteries should be charged every day they are used, even if only for thirty minutes or after nine holes. However the batteries should not be charged if they have not been used.

Preventive Maintenance

To keep batteries in good operating condition, follow these steps on a regular basis.

Batteries should be kept clean and dry to prevent self-discharge. Any dirt, grime or acid spillage should be removed. Wash batteries using water and bicarbonate of soda (baking soda— 1 cup per gallon of water). Rinse with water. Do not allow solution to enter battery through the vent cap holes.

Self Discharge

Dirty batteries can provide a path for a small current drain that can slowly discharge batteries, thus wasting valuable energy. To prevent self-discharge, batteries should always be kept clean. Hot weather also has an affect on a battery's self-discharge rate. The higher the temperature, the quicker a set of batteries will discharge. **In hotter climates** batteries should be checked more often.

MAINTAIN PROPER WATER LEVEL.

The water level should be checked weekly to be sure water is at its proper level (see below). Never allow the water level to fall below the tops of the plates because this will cause the exposed part of the plate to become permanently inactive. Check the water level more frequently in hot weather or when batteries become old.

Add water only after charging unless the water is below the level of the plates. If the water level is below the level of the plates add just enough water to cover the plates and then charge the batteries. After charging, fill with water to the level indicator. Filling a battery to the level indicator before charging will result in overfilling because the electrolyte level will rise during charging and some of the electrolyte may bubble out of the cap. This reduces its capacity and corrodes the metal parts around it.

Finance and Accounting for Non-Financial People

This comprehensive one-day program is for managers, supervisors, business owners, professionals, and executives from non-financial backgrounds. You'll learn the jargon, standard practices, and everyday applications of finance and accounting.

IN THIS ONE-DAY PROGRAM, YOU'LL LEARN HOW TO:

- Increase your confidence as you contribute your ideas in financial planning meetings with upper management
- Speak the language of the people who control your organization's purse strings
- Develop performance reports that show planned vs. actual income and expenses
- Reduce your decision-making skills by better understanding the financial impact of your choices
- Cut through the complex jargon of accounting
- Build reputation for consistently being on budget
- Apply the universal ground rules of finance to any organization's reports and planning processes
- Get your new ideas implemented and applauded for their bottom line results — rather than set aside and left untested.
- Assess the liabilities and payoffs of new ventures, proposals, and plans

Song 69 and Prayer

Use Our Web Site in the Ministry —"Bible Questions Answered"

The "Bible Teachings" section of jw.org has a feature called "Bible Questions Answered." If we are familiar with these frequently asked questions, we can direct inquiring householders to our Web site for Scriptural answers. These questions can also be used to start conversations in the ministry. We could pick a question that is of interest to people in our territory, ask the householder for his opinion, and then tell him what the Bible says, using the reasoning from jw.org. Afterward, we can explain or show him where we found our information. Another option is to let him read the answer directly from the Web site. The wife of a traveling overseer has had good success by saying, "Many people wonder, 'Is God to blame for our suffering?' Would you like to know the answer in just 31 seconds?" She then plays the audio version of the answer that she has downloaded to her mobile device. She concludes by introducing chapter 11 of the *Bible Teach* book.

"I Cannot Find Him at Home Again!"

Have you ever said that about someone who showed interest? Even though you have repeatedly tried to visit the person, you are unable to water the seed of truth you planted (1 Cor 3:6). At times, experienced publishers write a letter to someone they have not been able to find at home, or they leave a note in the person's door. Some publishers anticipate the challenge of finding the person at home again and request his phone number perhaps by asking, "Do you text?" A return visit may be counted when we visit the person in person or when we send him by means of a letter, an e-mail, a text, a note left in his door, or a telephone call. Even if he is seldom at home, it is possible for us to find that his interest

A New Research Tool

Millions of publishers earth wide have made good use of the *Watch Tower Publications Index* to do research. However, because it is very detailed, it is available in only a limited number of languages. Therefore the *Research Guide for Jehovah's Witnesses* has been prepared in some 110 languages. The publications referenced in the *Research Guide* are primarily from the year 2000 onward. The *Research Guide* has not been printed in languages that already have the *Index* but is included in electronic format in *Watchtower Library* and *Watchtower—ONLINE LIBRARY*. The *Research Guide* will help you search for answers to Bible questions, find information regarding personal concerns, and prepare for congregation meetings and family worship.

The machine cannot detect a WLAN access point/router that has WPS or AOSS enabled

If you would like to connect with WPS or AOSS, you must operate both your machine and the WLAN access point/router.
Confirm the connection method for WPS or AOSS on WLAN access point/router and try starting again

If you do not know how to operate your WLAN access point/router using WPS or AOSS see the documentation provided with your WLAN access point/router, ask the manufacturer of your WLAN access point/router or ask your network administrator

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC

Create a system repair disc

System recovery options can help you repair Windows if a serious error occurs. To use system recovery options, you'll need a Windows installation disc or access to the recovery options provided by your computer manufacturer. If you don't have either of these choices, you can create a system repair disc to access system recovery options.

To create a system repair disc

1. [illegible]

2. In the left pane, click Create a system repair disc, and then follow the steps. If you're prompted for an administrator password or confirmation, type the password or provide confirmation.

   Note

   - If you're prompted to insert a Windows installation disc, it means that the files needed to create the system repair disc can't be found on your computer. Insert a Windows 7 installation disc.

To use the system repair disc

1. Insert the system repair disc into your CD or DVD drive.
2. Restart your computer using the computer's power button.
3. If prompted, press any key to start the computer from the system repair disc.

   - If your computer isn't configured to start from a CD or DVD, check the information that came with your computer. You might need to change your computer's BIOS settings.

4. Choose your language settings, and then click Next.
5. Select a recovery option, and then click Next.

   Tip

   - Print these instructions and keep them in a safe location with your system repair disc.

AdChoices ▷

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 888 877 1655 (a toll-free number in the United States). When it's finished transmitting, point your web browser to FaxToy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Receiving Faxes Manually

You can set up your product to receive faxes manually by turning off **Auto Answer** mode. This lets you check for a fax tone on the connected telephone before receiving a fax.

1. When the connected telephone rings, answer the call.
2. If you hear a fax tone, select **Receive** on the LCD display.
3. Press one of the ♦ buttons, then hang up the phone.
4. Press one of the ♦ buttons again to print the fax.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below:

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing ***82** before dialing the toll free number will un-block the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to **Every Error** before attempting a test fax. This way, even if the send or fax fails, an error code will be generated that will good point in future troubleshooting. This option is available in all (except some on different products, consult the product *User's Guide* for specific steps.

1. Send a one-page black and white test fax to **1-800-hpfaxme** (1-800-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of this result is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

BUTCHERS HILL

July 2011

Summer has officially arrived and with it our annual July picnic. Because of the fun and camaraderie that we have had over the years we decided this year to change the day to a Friday so that most people won't have to worry about going to work the following day and can enjoy a longer evening with their neighbors. Please plan on coming out to enjoy the good food and better conversations.

The Jo'n Stoop Sitting award was well attended. The hosts out did themselves with fabulous food and gracious hospitality. The smiling time was ignored everywhere. We will be doing the event again in September; hopefully we won't have again chosen the hottest day of the year (who knew that June 1 would be in the upper 90's)

We are looking for a newsletter editor effective with the January 2012 newsletter. As many of you know we continue to print and distribute to every home in the neighborhood monthly plus email to those we have the info for. It is a task that takes about 4-6 hours a month over a 1 week period to garner all of the information from the committee chairs and then format into a cohesive 4 page document. It has been a couple of the neighbors and forever. If you have any publishing skills or are interested in learning we would love to talk to you. Most of us would miss having the information about the neighborhood (not to mention needing to change our bylaws if we go without)

Work on the new website has begun. Thanks to those who have offered the time and talents. If anyone else has any words of wisdom during the creative process, please feel free to contact me.

Please note the date change for the November meeting! As Hitchi union is moving to the 2nd Wednesday of the month – November 9, to accommodate the flea market held by St Andrews the prior weekend/weekend. Please remember to update your calendars.

See you in the hood.

Teri Sierra
President, BHA

Potluck Picnic July 8th!

Halsell Square (Duncan Street Park)

Friday, 6 -9PM

It's time again for our annual Butchers Hill picnic and barbeque located in Duncan Street Park (Halsell Square), between the 2100 blocks of Lombard & Park Streets in Duncan.

Everyone is invited – it is a great opportunity to see old friends and to meet new people. The Association provides the burgers, veggie burgers, hotdogs & chicken plus drinks (both the non alcohol and alcohol kind). Please bring a dish to share your favorite side or dessert are all welcome.

Volunteers are needed to help set up, or tear down & clean up. If you can volunteer please contact Craig Thomson at craig.thomson@ge.com or 410-371 1661

See you all there!!

XOXO

TAKING CARE OF YOUR TREES

Go to ButchersHill.org, Archived Newsletters, August 2010 page 3 for the full page original article on Watering Urban Trees. Main points are Trees swell through shade and transpiration and provide oxygen air cleaning and noise buffing.

Watering once or twice weekly slow trickle for about an hour between 9pm & 5am causes deep root production for drought tolerance. Over watering depletes oxygen roots need. Don't over mulch – not over 4 not against tree trunk (think donut shape) mulch on slope 2-4 mulch over whole tree pit to reduce water evaporation, keep roots cool in summer warm in winter and supply nutrients. DO NOT put competing plants around tree base

SAVE THE DATES!

2011 Butchers Hill Events:

Potluck Picnic – Friday July 8
Fall Flea Market Saturday, Sept. 10

The Bill of Rights in the National Archives

The **First Amendment** (**Amendment I**) to the United States Constitution is part of the Bill of Rights. The amendment prohibits the making of any law respecting an establishment of religion, impeding the free exercise of religion, abridging the freedom of speech, infringing on the freedom of the press, interfering with the right to peaceably assemble or prohibiting the petitioning for a governmental redress of grievances.

Originally, the First Amendment applied only to laws enacted by the Congress. However, starting with *Gitlow v. New York*, 268 U.S. 652 (1925) the Supreme Court has held that the Due Process Clause of the Fourteenth Amendment applies the First Amendment to each state, including any local government.

The Most Compelling Evidence

Would you not agree that the skepticism about the Genesis account has little real basis? On the other hand, there is powerful evidence that the account is true historically.

For example, Jesus Christ is called "the faithful and true witness." (Revelation 3:14) Being a perfect man, he never lied, never misrepresented the truth in any way. What is more, he taught that he had existed long before his life as a man. In fact, he had lived alongside his Father Jehovah, "before the world was." (John 17:5) So he was alive when life on earth began. What is the testimony of this most reliable of all witnesses?

Jesus spoke of Adam and Eve as real people. He referred to their marriage when explaining Jehovah's standard of monogamy (Matthew 19:3-6). If they were treated as the garden in which they lived was a mere myth, then either Jesus was deceived or he was a liar. Neither conclusion is feasible! Jesus had been in heaven, watching as the tragedy unfolded in the garden. What evidence could be more convincing than his?

In reality, disbelief in the Genesis account undermines faith in Jesus. Such disbelief also makes it impossible to understand some of the Bible's greatest themes and most reassuring promises. Let us see how that is so.

WHY EDEN MATTERS TO YOU

ONE of the most surprising objections that some scholars raise to the account about Eden is that it is not supported by the rest of the Bible. For example, Professor of Religious Studies Paul Morris writes, "There are no later direct biblical references to the Eden story." His assessment may win nods of agreement from various "experts," but it is directly counter to the facts.

The Bible actually makes numerous references to the garden of Eden, Adam, Eve and the serpent." But the error of a few scholars is an exception to a much larger, more massive one. By discrediting the Genesis record of the garden of Eden, religious leaders and Bible critics are actually launching an all-out assault on the Bible. How so?

A misunderstanding about *happened* **in Eden is**

See, for example, Genesis 13:10; Deuteronomy 32:8, 32; Isaiah 51:3; Ezekiel 28:13; 1 Chronicles 1:1; Isaiah 51:3; Ezekiel 36:35; Joel 2:3; Romans 5:12-14; 1 Corinthians 15:22; 2 Corinthians 11:3; 1 Timothy 2:13, 14; Jude 14; and Revelation 12:9.

Welcome to Windows® Fax and Scan

Create and scan faxes, and scan documents and pictures

Faxing

Faxing You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To set up a fax account

1. Connect a phone line to your computer.

   If your computer has an external modem connected, also connect the modem. If not, connect the computer to a phone line.

2. Open the Windows Fax and Scan program.

3. In the folder list, click Inbox, and then, on the toolbar, click Tools, and then click Fax accounts. If you're prompted for an administrator password or confirmation, type the password or provide confirmation.

4. Click Add a new account, and then follow the instructions in the wizard.

For more information about setting up a modem, see the documentation that came with your modem, and then search Help and Support for the topic.

Scanning With your computer and software, you can convert text and pictures on paper into digital pictures that you can view, edit, and e-mail. Before you scan, make sure that your scanner is connected to your computer and that you've installed the software that came with your scanner. You can also fax or e-mail scanned files to someone else.

To scan a document

1. Connect your scanner to your computer, and follow the instructions that came with your scanner. Make sure you've placed the document or picture on the scanner.

2. In the folder list, click Inbox, and then, on the toolbar, click Scan.

3. Click the New Scan button.

4. Choose the scanner you want to use, and then click Add.

For more information about how to fax, e-mail, or save scanned documents, see the Help and Support topics. To open Help and Support, click the Help button on the toolbar.

Welcome to

Windows® Fax and Scan

Use your scanner and fax your documents

FAX. You can send and receive faxed documents on your computer without using a fax machine. You can also print e-mail or create a copy of your faxes.

To get started

1. Connect a phone line to your computer.

   If your computer uses an external modem, connect the phone line to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the wizard to add a scanner or fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with this task, click the Help button on the toolbar.

SCAN! After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started

1. Connect your scanner to your computer, and then follow the instructions that came with your scanner to install the necessary software or drivers.
2. In Windows, on the Start menu, click **Control Panel**, and then click **Scanners and Cameras**.
3. On the toolbar, click **New Scan**.
4. Choose the scanning settings you want to use, and you're ready to scan.

Using Help and Support Center

To find out more about Windows Fax and Scan at any time, for more help with scanning, or for more help with using the toolbar, click the **Help** button on the toolbar.

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere.

Imprimatur
Most Rev George W Ahr
Bishop of Trenton

Test fax from Circuit ID

To test the send functionality of your fax machine, send a one-page fax to 1-855-330 1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Tips for Avoiding Your Allergen

- All FDA-regulated manufactured food products that contain a "major food allergen" (milk, wheat, eggs, peanuts, tree nuts, fish, crustacean shellfish, and soy) as an ingredient are required by U.S. law to list that allergen on the product label. For tree nuts, fish and crustacean shellfish, the specific type of nut or fish must be listed.
- Read all product labels carefully before purchasing and consuming any item.
- Be aware of unexpected sources of allergens, such as the ingredients listed below.
- *Note: This list does not imply that the allergen is always present in these foods; it is intended as serve as a reminder to always read the label and ask questions about ingredients.

For a Milk-Free Diet

Avoid foods that contain milk or any of these listed ingredients:

butter, butter fat, butter oil, butter powder, butter solids, butter substance, butterscotch, buttercream, cheese, cheese food, cheese powder, cheese spread, cottage cheese, cream, cream cheese, curds, custard, dairy blend, dairy product solids, ghee, half and half, hydrolysates, lactalbumin, lactalbumin phosphate, lactoglobulin, lactose, lactulose, milk, milk derivative, milk fat, milk powder, milk protein, milk protein hydrolysate, milk solids, nougat, pudding, recaldent, rennet casein, sherbet, simplesse, sour cream solids, sour milk solids, sour cream, sodium caseinate, tagatose, whey, whey powder, whey protein, whey protein concentrate, yogurt

Milk is sometimes found in other forms of:

artificial butter flavor, baked goods, beef broth, bouillon, braised, brown sugar, buttered, buttermilk, candy, caramel, carob, casein, chocolate, cocoa butter, condensed milk, cookies, creamed, creamy, curry, dessert, dietetic foods, dressing, evaporated milk, fondue, frosting, gravies, high protein flour, hydrolyzed plant protein, hydrolyzed vegetable protein, ice cream, imitation butter flavor, lactic acid starter culture, lactose intolerance, lactulose, lecithin, low lactose, margarine, meat loaf, meat substitute, milk chocolate, milk shakes, mocha, natural flavoring, nisin preparation, non-dairy creamer, nougat, pastry, pudding, pudding mix, quiche, rice milk, sherbet, shortening, sour cream, sour milk solids, soy cheese, soy milk, sweetened condensed milk, tuna fish, vegetable gum, vegetable protein, vegetable shortening, whey, whipped cream, whipped topping, yogurt

Keep label following in mind:

- Individuals who are allergic to cow's milk protein should also avoid goat's milk and products made from goat's milk, such as goat's cheese, as there is a significant cross-reactivity between cow's milk and goat's milk proteins.
- Be aware that "non-dairy" creamers, "artificial butter flavors," and "non-dairy" cheeses usually contain milk derivatives.

For a Wheat-Free Diet

Avoid foods that contain wheat or any of these ingredients:

bread crumbs, bulgur, cereal binders, cereal extract, club wheat, couscous, cracker meal, durum, edible starch, einkorn, emmer, enriched flour, farina, farro, flour (all purpose, bread, cake, durum, enriched, graham, high gluten, high protein, instant, pastry, self-rising, soft wheat, sprouted wheat, steel cut, stone ground, whole wheat), fu, germ, gliadin, graham flour, hydrolyzed wheat protein, kamut, matzah meal, matzoh, matzoh farfel, matzoh meal, modified food starch, mostaccioli, noodles, pasta, pastina, pearl barley, perna, plain flour, poulard, rusk, seitan, self-rising flour, semolina, shredded wheat, spelt, sprouted wheat, strong flour, suet in packets, tabbouleh, tempura, teriyaki sauce (made with wheat soy sauce), textured vegetable protein (TVP), triticale, vegetable gum, vegetable starch, vegetable protein, wheat bran, wheat germ, wheat grass, wheat starch, wheat protein isolate, wheat, whole wheat flour

Wheat is sometimes found in other forms of:

alcohol, baking powder, beer, bleached flour, bran, breading, brewer's yeast, caramel color, cereal, chewing gum, chocolate liquor, communion wafers, cookies, dextrin, dextrose, edible films, energy bars, fried foods, gelatinized starch, glucose syrup, gluten, gravies, ground spices, hydrolyzed plant protein, hydrolyzed vegetable protein, ice cream cones, imitation bacon, imitation seafood, licorice, malt, malt extract, malt flavoring, malt syrup, malt vinegar, marinades, matzah, matzoh, matzoh farfel, matzoh meal, modified food starch, mustard powder, non-dairy creamer, oats, oat bran, oat flour, pasta, pastry, processed foods, rice mixes, salad dressings, sauces, seasoned coatings, self-basting poultry, soup cubes, soy sauce, stabilizers, starch, stuffings, suet, textured vegetable protein, thickening, vegetable broth, vegetable gum, vegetable starch, vegetable protein, vinegar, wheat bran, wheat germ, wheat grass, wheat starch, wheat protein isolate, yeast

For an Egg-Free Diet

Avoid foods that contain eggs or any of these ingredients:

albumin, albumin powder, albumen, apovitella, avidin, binder, coagulum, cholesterol, dessert powder, dietetic foods, egg, egg albumen, egg analog, egg base, egg cholesterol, egg fat, egg lecithin, egg noodles, egg powder, egg protein, egg substitute, egg white, egg white solids, egg yolk, eggnog, emulsifier, flavoring, fortified foods, globulin, glycerides, high protein flour, lecithin, livetin, lysozyme, mayonnaise, meringue, meringue powder, mousse, nougat, ovalbumin, ovoglobulin, ovomucin, ovomucoid, ovovitellin, ovovitellin, pastry, powdered eggs, protein, simplesse, surimi, vitellin, whipped cream, whipped topping

Eggs are sometimes found in the following:

baked goods, battered, binding agent, breaded items, cake batter, coagulating agent, coating, cookies, creamy dressings, custard, dietetic foods, egg substitutes, egg wash, eggnog, emulsifier, enriched macaroni products, fabricated seafood, fried foods, frostings, glaze, gravies, hollandaise sauce, lecithin, marshmallows, marzipan, meatloaf, meringue, mousse, nougat, pastries, pastry, poultry seasoning, quiche, sauces, scalloped potatoes, scrambled eggs, shellfish, simplesse, soufflés, spaetzle, surimi, tartar sauce, vegetable gum, vitellin, whipped cream, whipped topping, yogurt

Keep the following in mind:

- Individuals who are allergic to eggs should also avoid chicken and other fowl as they are closely related to eggs and may cross-react with eggs or eggs products.
- Be aware that egg substitutes, egg powder, egg protein powders, egg yolks, and egg whites must be listed on food labels.

For a Soy-Free Diet

Avoid foods that contain soy or any of these listed ingredients:

edamame, hydrolyzed vegetable protein (HVP), kinnoko, koya dofu, miso, natto, okara, shoyu, soy albumin, soy cheese, soy fiber, soy flour, soy grits, soy ice cream, soy milk, soy nuts, soy sauce, soy yogurt, tamari, tempeh, textured vegetable protein (TVP), tofu, umeboshi vinegar, yuba

Soy is sometimes found in the following:

Asian cuisine, vegetable gum, vegetable starch, vegetable broth

Keep the following in mind:

- The FDA requires labels to list soy as an ingredient. However, soy may be used in some products without being listed as an ingredient. For example, soy lecithin is exempt from labeling requirements because it has been found to be safe for most people. Another source of soy is vegetable gum.
- Be aware that soy is a legume and may cross-react with other legumes.
- Ask your doctor if you should avoid other legume ingredients.

Common IT Questions

- **I need information about (fill in the blank)** Amazon has an internal search engine to help you find answers to common problems and how-to questions **http //is amazon com** If you have questions it is a great place to look.

- **Set Up Desk Phone** – If you have a desk phone at your desk On the back of the phone you should see a barcode with a number running atop it starting with 0004F (Shown left) With this number you can submit a ticket via IT amazon com asking for the phone to be provisioned to you During the provisioning process your voicemail will be created with a default pin of **1234** To log in use your amazon username (the top name on your badge) and your pin Make sure that you change your pin You can access your voicemail from the phone itself by dialing the extension **357-6269** and entering your pin.

- **I need VPN access** – Go **https //tokens.amazon com** click on Register in the left hand column For detailed instructions check the VPN handout you should've received at **https //w amazon com/?Gamalto_Tokens**

- **I need to install a specific piece of software** – On Windows many pieces of software are available to install through **Run Advertised Programs** On the Mac Self Service serves the same function Licensed software can be purchased through **https //itmarketplace corp amazon com** with manager's approval

- **I need to swap my Windows laptop for a Mac** – First talk to your manager and make sure that you've approved to use a Mac Then take a look at **http //w amazon com/?MacEligibilityPolicy** to see if you qualify If everything looks good stop by your nearest IT Support office during their walk up hours to make the trade

- **I'd like to swap my laptop for a smaller one** – We have 12" laptops available for users who travel frequently or have a medical condition requiring a smaller device Stop by your IT Support office during their walk-up hours to ask about availability

- **Account Unlock** – Your Amazon account will lock at 3 failed password attempts Accounts will automatically unlock after 30 minutes of inactivity To immediately unlock your account using your VPN token visit **https //amazonunlock com**

- **I still need help** – You can call the Helpdesk at **206-266-4357** (x6-HELP) or chat **http //firstaid amazon com**

- **Local IT Support** – Refer to **https //w.amazon.com/index.php/AUS11-IT_Support**

An Analysis of the Impact of CareCredit® on Patients' Use of Dental Services

Executive Summary

Having a CareCredit patient financing option available can help dental practices attract new patients and increase the number of visits and services accepted by existing patients. Equally important, households that opened a CareCredit account, the increased level of dental services was sustained. The intervention was validated and approved by the Academy of Dental CPAs (www.ADCPA.org) was obtained from analysis of data of more than 1 million households across a 6-year period, examining how dental patients in the U.S. use dental services over time.

Key Findings

In the year in which the account is opened CareCredit account holding households

- Make 66% more dental visits
- Accept 282% more dental services (as measured in dollar value)

In the four years after the account is opened CareCredit account holding households on average

- Make 25% more dental visits per year
- Accepted 44% more dental services per year

Number of Visits per Household	**+62%**	**+25%**
Amount of Dental Services Accepted	**+282%**	**+44%**

Specifically, in a certain year, a group of 1,000 households that opened a CareCredit account would potentially make 2,300 visits on average and spend approximately $2.3 million more in that year than a group of 1,000 non-account holding households. Furthermore, in any given year afterward, the same group of CareCredit account holders would make 900 more visits and spend $382,000 more than 1,000 of their non-account holding counterparts.

These findings help demonstrate how CareCredit can help dental practices grow by driving greater patient production and more appointments scheduled.

For a full report, visit carecredit.com

For more information, the ADCPA organization, please visit www.adcpa.org. Founded in 1963, the Academy of Dental CPAs, ADCPA, now serves over 7,000 dentists nationwide.

Our members help dental practices of every size, specialty, and geographic area, in more than 25,000 practices nationwide, helping more than 6 million patients get the care they need.

Call Before You Dig—1-800-242-8511 For your safety if you are digging, excavating or disturbing the soil, you are required to dig only by contacting your state notification center at least three days in advance. Charter lines, along with video, carry voice traffic. Damaging the lines can interrupt 911 and other emergency calls. Call 1-800-242-8511 or go online at www.digsafelyutah.com.

Insufficient Funds Payment Policy Charter may charge an insufficient funds processing fee for all returned checks and honoured charge-backs. If your check, banknote (debit or credit) charge or other instrument or electronic transfer transaction used to pay us is dishonored, refused or returned for any reason, we may electronically debit your account for the payment, plus an insufficient funds processing fee as set forth on your Video Services rate card (up to the amount allowed by law) and any applicable sales tax). Your bank account may be debited as early as the same day payment is dishonored, refused or returned. If your bank account is not debited, the returned check amount (plus fee) must be provided by cash, cashier's check or money order.

Video On Demand (VOD) and Pay-Per-View (PPV) To order, your account must be current. To prevent unauthorized use of these services in your household, you are responsible for setting up a PIN number, parental control and/or billing preference. Charter will not issue a credit for the following: 1) unauthorized use; 2) ordering a PPV event or movie which you are not present to view; 3) failure to input a reception problem that occurs during the reserved period or event; or 4) failure to report non-delivery of an ordered movie or event.

Billing Information

Tax and Fee Notice - This statement reflects the current sales and fees for your area, visit www.charter.com/taxesandfees for more information. For additional details, please see the standard terms and conditions for our Services located at www.charter.com.

Converter Rental The rental agreement for customers with converter boxes (Standard Digital HD DVR or advanced analog receivers) is with, and the rental payments are owed to, an affiliate of Charter Leasing LLC. Charter will remit the applicable portion of your payment relating to the rentals, plus the applicable sales tax paid by you, to the Lessor/ LLC.

Charter Phone Provider Charter Fiberlink CC VII LLC

Telephone Taxes Includes sales, excise and user taxes that we are required by law to bill customers. These taxes may change without notice. For more information visit www.charter.com/taxesandfees.

Telephone Fees and Charges These include charges, to reduce to defray government fees or passed on to us by local exchange carriers related to Charter's Phone service, including a Federal Universal Service Charge and, if applicable, a State Universal Service Charge to recover amounts Charter must pay to support statewide telephone service, and may include a state-specific fee. [illegible] Charter Fiberlink CC VII LLC for each of [illegible] may also be [illegible] Charter's costs. Please note that these charges are not taxes and are subject to change. For more information visit www.charter.com/taxesandfees.

Timely Payment If your payment is not received by the next billing statement, your account is subject to interruption of service. Affordable equipment may be rendered non-functional prior to termination. You are subject to an "administrative charge of service" charge to reinstate disconnected channels when function is restored.

Statements with Zero or Credit Balances Customers with a zero or credit balance on their bill will not receive a paper statement.

Complaint Procedures If you disagree with your charges, you have 30 days from the billing date to register a complaint. Charter will provide an initial response within 3 days and a written response, if necessary, within 15 days. You will have 10 days to respond to our written response. During the entire period, we will not terminate service provided you pay the undisputed portion of your bill.

Troubleshooting Steps

The steps below will help you resolve common faxing problems

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC

Test Description and Clinical Evidence
BCI pr vides two outputs based on a 4-gene gene expressior (quant itative R PCR) signature, BC Prognostic and BC P dictive.

BCI Predictive r vides a predictor of likelihood of benefit from extended (>5 years) endocrine therapy (ET).[1] Pa ient results in a ow, ntermediate or high or low likelihood of Benefit. BCI Predictive is based on the ratio of HOXB13 : IL17BR) and was validated in a N = 1,149 G WA 17 tria.[2,3]

BCI Prognostic n (N+ positive nodes) provides an individualized estimate for a pa ient s risk for distar recurrence in the late (5-10 years) post-initial diagnosis. BCI Prognostic is validated in 10-10 years post-diagnosis data for each time frame s risk category is pr vided based on post-surgery nodal status. BCI Prognostic for LN+ patients (1-3 pos tive nodes) is based on the algorithm combination of the BCI gene expression result with mo ecular and clinical grade. BC prognostic for LN+ pa ients was validated in clinical trial patients with node positive, node-positive patients who were treated with adjuvant endocrine and chemotherapy.[1]

Intended Use & Limitations
The Breast Cancer Index (BCI) Risk of Recurrence & Extended Endocrine Benefit Test is intended for use in patients diagnosed with estrogen receptor-positive (ER+), lymph node-negative (LN-) or lymph node positive (LN+, with 1-3 positive nodes) early-stage, invasive breast cancer, who are disease free post-surgery. The quantitative assessment of the likelihood of both late (post-5 years) and overall (5-10 year) distant recurrence following an initial 5 years of endocrine therapy (LN- patients) or 5 years of endocrine therapy plus adjuvant chemotherapy (LN+ patients), and 2) prediction of likelihood of benefit from extended (>5 years) endocrine therapy. Results are adjunctive to the ordering physician's workup, treatment decisions remain consistent with all other clinical findings. This test was developed and its performance characteristics determined by Biotheranostics, Inc. It has not been cleared or approved by the U.S. Food and Drug Administration. This test is used for clinical purposes. It should not be regarded as investigational or for research. Any new information is used to guide patient care is the responsibility of the physician. Biotheranostics is certified under the Clinical Laboratory Improvement Amendments of 1988 to perform high complexity clinical laboratory testing.

ACKNOWLEDGEMENT OF RECEIPT OF TRAINING

VNF 2nd Quarter FY 2017 CEU

Store Safety and Security

My signature on this form indicates that I attended the 2nd Quarter CEU for Store Safety and Security. I understand that store safety is everyone's responsibility and that our store philosophy is "you see it, you own it." I have received training for proper glass clean-up and disposal.

Additionally, I have been briefed on store security and am aware of what to do in the event of an emergency to include natural disasters. I have had an opportunity to become familiar with all store exits and to ask any questions that I may have. I have also been made aware of our store's policy on how suspected shoplifters may be addressed.

I understand that the CEU cannot encompass all possible circumstances, and that if I have any further questions or concerns that I may address them with my manager or Human Resources representative.

Fax Hardware Test — **PASS**
Fax Connected to Active Telephone Wall Jack — **FAIL**

An active phone line was not detected

Please check the items below then rerun this test.

Check the phone cord connection between the wall jack and the fax.

The phone cord from the wall jack should be connected to the port labeled "1-LINE" on the back of your HP device.

If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.

Plug your phone into the wall jack and check that a dial tone is available.

Check that you are using the phone cord supplied with your HP device.

Refer to your User Guide for more information on the fax test and settings.

CHAPTER 2—LAB 1: DETERMINING YOUR LATITUDE

Materials

Soda straw; cardboard, or file folder; coin, or small weight; masking tape and/or glue; string, scissors

Objective

To show your parent or guardian how to determine your latitude, without the use of any communication devices (like a computer) or printed materials (maps, reference books, etc.)

Procedure

Figures 2-13 and 2-14 will help you to construct and use an astrolabe. An astrolabe is a device to measure the angular altitude of any point in the sky. You may either make this device following the steps below, or you may just explain to the adult how it is made and used.

1. Cut out the protractor below and paste it to an index card. Trim off excess index card.
2. Attach a coin or weight to a piece of string and hang it so that it pivots from the place labeled "String swings from here" at the center of the paper protractor.
3. Attach a drinking straw along the flat side of the protractor with tape as indicated in Figure 2-13.

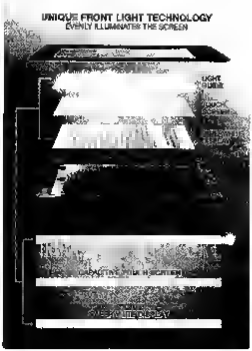
Read in Bright Sunlight with No Glare

Kindle Paperwhite has a matte screen that reflects light like ordinary paper so you can read as easily in bright sunlight as in your living room with no glare.

Read at Night

With Kindle Paperwhite, reading in bed just got better. The patented built-in light illuminates the screen - not the entire room, so you won't disturb your partner when you can't put your book down at night.

Patented Built-In Light



Patented built-in light

Designed for Reading

Unlike a backlit tablet display, Kindle Paperwhite guides light towards the surface o ink display from above so that the light never shines directly towards your eyes. T you to read comfortably without eye strain. The built-in light illuminates the surfa evenly than a book light or lighted cover.

Perfectly Balanced Whiteness

We worked on Kindle Paperwhite for over two years to perfect the uniformity of wi in light, flattening out a fiber optic cable into a sheet and nanopatterning to ensu perfectly even distribution of light. Our design uses nanoscale optical diffraction pa to scatter light across the direction of the light. Enjoy reading with exceptio lighting uniformity and evenly balanced whiteness across the entire display. See ho screen looks in different lighting conditions.

Adjustable Brightness

Your eyes adapt to the amount of light around you, so you'll prefer dimmer light read in a dark setting and brighter light when reading in well-lit surroundings. adjust the brightness of Kindle Paperwhite across a wide spectrum - from low ligh brightness - so you can read comfortably in any setting.

Power Efficient

Because our patented technology enables one-piece control over where the light i diffused, Kindle Paperwhite uses low-power LEDs, requiring very little power to ev illuminate the entire screen.

Instead of using one of the comments above, you can enter up to two customized messages, each 27 characters long. Use the chart on page 29 to help enter characters.

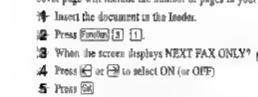
Most of the SETUP SEND functions are temporary settings that allow you to make adjustments for each document you send. However, so you can set up your cover page and cover page comments in advance, the Cover Page Setup and Cover Page Message functions change the default settings.

Cover Page for Next Fax Only

Make sure the Station ID is set up (p. 28). This feature does not work without the Station ID.

You can set the fax to send a cover page with a particular document. This cover page will include the number of pages in your document.

1. Insert the document in the Inodu.
2. Press Function, 3, 1.
3. When the screen displays NEXT FAX ONLY? press Set.
4. Press ◄ or ► to select ON (or OFF).
5. Press Set.
6. Press ▲ or ▼ to view the comment selections.



7. Press Set when the screen displays your selection.

Repairs done right — guaranteed

Every covered repair is guaranteed to be done right. With TotalProtect, we're always at your service and 100% committed to keep the things you and your family depend on running smoothly. All covered work performed under the plan is guaranteed for a full 6 months.

Need a complete replacement? No problem

Of course, sometimes a repair just isn't the best answer. When that's the case, TotalProtect will replace the covered system or appliance with a new one of comparable features.* Imagine that ... a new hot water heater or cooling system, for example, for the low cost of your $75 deductible.* TotalProtect truly lowers the possibility of destroying your budget. Plus, if you ever wish to upgrade appliances on your own, TotalProtect's Appliance Buyline® discount buying service can save you up to 30% off the suggested retail price on brand name appliances.

And it gets even better — with TotalProtect® Gold

That's right – In addition to all the protection of TotalProtect, you can now upgrade your coverage to include A seasonal system and appliance tune-ups with TotalProtect Gold. This service ensures that 103 vital checkpoints will be covered for maintenance by a pre-qualified service professional throughout the year – from your plumbing, heating and cooling systems to your electrical system and major appliances. And by keeping your systems and appliances running at maximum efficiency you could end up saving money on your monthly energy bills.

Call as many times as you need to — at no extra charge

Don't worry about a string of bad luck. Call TotalProtect as often as necessary – there is no limit to how frequently you can call to use the repair service. And every time you do, you're saving money you would have spent without TotalProtect.

You don't have to risk a thing — review TotalProtect for 30 days

With your home turning another year older, it's more important than ever to see how well TotalProtect can work for you. Send no money — simply place a check on the attached invitation next to the home protection plan you want to review (TotalProtect or TotalProtect Gold). Then sign and return it in the postage paid envelope and you'll have 30 days before your protection is available to review the materials free. Read through your coverage to make sure the plan is right for you. If you decide to give it a try, simply do nothing and after the 30-day review the low monthly fee for the coverage you selected on the attached invitation will be automatically debited from your Wachovia checking account each month to ensure continuous service. (If returned with no coverage selected – a $39.95 monthly fee will apply.) Of course, you can cancel at any time after your review period, for any reason. Simply call TotalProtect's Customer Service toll-free at 1-866-439-7642 to cancel during the first 30 days.

As your home gets older, so do your systems and appliances. Protect your home and your budget with TotalProtect and keep your home up and running for a long time to come. Please RSVP for your free 30-day review today.

Sincerely,

Fax Test

Sandi Finn
President
TotalProtect

P.S. Your current homeowners insurance policy typically doesn't cover mechanical failure for your major home systems and appliances. So take advantage of this invitation for a free 30-day review of TotalProtect. Remember, you're under no obligation.

Based on specific county-level property tax assessor data.

*See terms, conditions and limitations in your Service Agreement that you can cancel during the 30-day no-cost review period. Covered systems and appliances must be in good working order with no apparent visual or operational malfunctions, or your Agreement effective date. Non-covered and incidental charges may apply. You may cancel at any time after the 30-day review period; however, you may be responsible for any costs associated with services performed by TotalProtect during the term of your Agreement prior to cancellation.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

How to earn your $600 HRA credit

Step-by-step instructions

These wellness activities are a great way to kick start your health and earn credits for your health reimbursement arrangement (HRA) along the way. Your qualified spouse or domestic partner can take part too for a total of $1,200 per family. Be assured that individual results or values from any wellness activities you complete will not be shared with American Red Cross.

Before you get started Sign up

- Go to **my.kp.org/americanredcross** and click the "Start your MyRedCross Wellness Program today" link.
- Sign on to the wellness program website by entering your kp.org user ID and password. (If you're not registered at kp.org yet, click the "Register now" button to get a user ID and password.)
- **Click the "Yes" box on the "Wellness Program Agreement" page to be eligible for your HRA credit.** If you check the "No" box, you will not be able to earn your HRA credit.
- Update or provide your contact information on on the registration page.

Step 1 Complete your Total Health Assessment

- Sign on to the wellness program website through **my.kp.org/americanredcross.**
- Click the "Start a Total Health Assessment now" link on the "My Rewards" page.

You'll earn a $100 credit from American Red Cross for completing this online questionnaire. But that's not the only reason to do it – you must complete the assessment to earn more credits.

Step 2 Complete your biometric screenings

- Make an appointment with your doctor for the following screenings. You can schedule an appointment on kp.org or call the phone number on the back of your member ID card.

Total cholesterol or A1c	Fasting blood sugar
Blood pressure	BMI (body mass index)

Step 3 Check your results

If all of your biometric screening results meet the program goals

➔ Claim your remaining $500 HRA credit from American Red Cross!

If some or all of your biometric screening results do not meet the program goals

➔ Complete alternate wellness activities. (See back.)

May 28 - check in

Κυρίφιλ κύριε Πετεγιάν

Σας γράφω για να ζητήσω διευκρινίσεις σχετικά με κάποια από τα τιμολόγια που μου στείλατε. Είμαι πελάτης μας από τον Μάιο του 2010 και μέχρι τώρα δεν είχα ποτέ κανένα πρόβλημα με τις παραγγελίες μου. Ωστόσο, τον τελευταίο καιρό έχω παρατηρήσει ότι οι χρεώσεις που μου γίνονται δεν είναι πάντα σωστές.

As I was walking up the stair
I met a man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

When I came home last night at three
The man was waiting there for me
But when I looked around the hall
I couldn't see him there at all!
Go away, go away, don't you come back any more!
Go away, go away, and please don't slam the door

Last night I saw upon the stair
A little man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

The firewire driver creates the device nodes /dev/fw0 and /dev/fw1
"sa control" (and most of the utilities) need **root** access to the firewire controller rom
But mmmyth runs as user "mythtv" so sa_control doesn't work within MM
I tried
Add the video group and the [root, mmmyth, mythtv video] users together
Modify /etc/udev/rules.d/90-Joes-mythtv-rules to set the owner group and mode to root, root, 0666 This will over-ride some stuff in /lib/udev/rules
None worked
What worked
Do not modify "/lib/udev/rules.d/50-udev-default.rules"
Modify "/etc/udev/rules.d/80-Joes-mythtv.rules"
I'm not sure why FWire_0 and FWire-1 ended up with owner/group = root/root, but it works.

"This soup is easy to put together and the flavor of the spicy sausage is balanced nicely by Great Northern beans, zucchini, fresh spinach and carrots. Makes a delicious winter supper."

1 pound Italian sausage
1 clove garlic, minced
2 (14 ounce) cans beef broth
1 (14.5 ounce) can Italian-style stewed tomatoes
1 cup sliced carrots
1 (14.5 ounce) can great Northern beans, undrained
2 small zucchini, cubed
2 cups spinach, packed, rinsed and torn
1/4 teaspoon ground black pepper
1/4 teaspoon salt

In a stockpot or Dutch oven, brown sausage with garlic. Stir in broth, tomatoes and carrots, and season with salt and pepper. Reduce heat, cover, and simmer 15 minutes.

Stir in beans with liquid and zucchini. Cover, and simmer another 15 minutes, or until zucchini is tender.

Remove from heat, and add spinach. Replace lid allowing the heat from the soup to cook the spinach leaves. Soup is ready to serve after 5 minutes.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web

Death Defying

Early in the morning of August 7, 1974, New Yorkers, bound from downtown Manhattan were astonished to see a man walking a tightrope between the two towers of the World Trade Center. The twenty-seven-year-old French aerialist Philippe Petit had performed similar stunts in Europe, spending six minutes balancing the wire as he traversed the cable six times and an assistant had surreptitiously rigged between the two 1,350-foot towers. He could, walked backward, lie down, dance, and even perform knee bends. Once at each end he bowed while people below looked skyward, instead of focusing on the troubles of the day. As soon as Petit finished his high-wire walk, police arrested him and he was taken to a precinct station. Years later, Petit described his performance as a way to express the light side of human nature.

At the time New Yorkers were unconcerned by the twin towers' bold look. Contemporary skyscrapers, which one critic called "the largest of anonymous building[s] in the history of the world," didn't help but were complicated in 1974 by two towers, the tallest of the world's tallest building lining from the city's beloved Empire State Building. Yet in that nearly 40-year existence the twin buildings became a fundamental part of the Manhattan skyline, as well as a symbol of American strength. How the towers' presence affected the city is subject to much debate. Some critics, such as Peter Carlin, author of *Manhattan Monuments*, have argued that the towers' presence helped to revitalize the city's economy. Others, such as Petit, call them "an eyesore." Regardless of opinion, the towers' presence has left an indelible mark on the city's landscape.

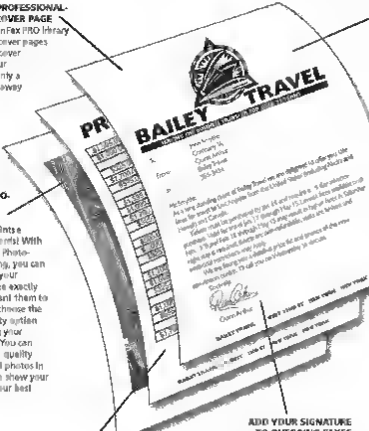
WinFax PRO

WELCOME TO WINFAX PRO 10.0!

Congratulations! You've just installed the latest version of WinFax PRO, the number one choice for sending, receiving and managing faxes. Read on to learn more about some of the exciting features available in this version, and to hear how others are using it to make their small business more professional – all with the easy-to-use fingertip ease of WinFax PRO.

CREATE A PROFESSIONAL-LOOKING COVER PAGE
With the WinFax PRO library of business cover pages the perfect cover page for your business is only a mouse click away

SEND AND FORWARD FAXES BY EMAIL
Now you can send or forward a fax in self viewing format to any email address. Your message arrives looking exactly the way you want it to, and your recipient doesn't need to own WinFax PRO or a fax machine



SEND PHOTO-QUALITY FAXES
A picture paints a thousand words! With WinFax PRO Photo-Quality faxing, you can ensure that your customers see exactly what you want them to see. Simply choose the Photo-Quality option when faxing your documents. You can include high quality graphics and photos in your faxes to show your customers your best side

RECEIVE ONLY THE FAXES YOU WANT AND AVOID UNWANTED FAXES
Unsolicited faxes cost you time and money. With WinFax PRO's new Junk Fax Management feature, you can enter a fax source's Caller ID or CSID to automatically discard unwanted faxes. Receive only the faxes you need to receive

ADD YOUR SIGNATURE TO OUTGOING FAXES
Small details make a big difference when it comes to projecting a professional image. With WinFax PRO you can easily import or capture your signature and use the new Signature button to easily add it to outgoing faxes.

CONVERT DOCUMENTS FROM OTHER APPLICATIONS
With WinFax PRO you can easily convert documents from various application files (such as word processors or spreadsheet applications) into fax files. On-screen **Preview** allows you to quickly review your fax. Pages can also be added or deleted from the fax document or rearranged in a few easy steps.

Come into this house

Magnify the Lord

Lift up Holy hands

Our hearts in one accord

He's worthy.....worthy of all our praise
He's worthy.....worthy of all our praise

Make a melody

Sing unto the Lord

He hath given us a song and a sword

He's worthy, worthy of all our praise
He's worthy, worthy of all our praise

Worthy of Honor and Glory
Worthy of power and praise

Worship and bow down before Him

Exalt His name today.

1. If the moon was four times as far from the Earth, how much would the force of gravity decrease?
2. If an apple fell from thirteen times its original height, how much more would the force of gravity decrease?
3. If the egg dropped from six stories where it was usually dropped from, how much would the force of gravity decrease?

Answer Key

the force of gravity would be

1. 1/4=1/8 of its original value
2. 1/13=1/169 the force of gravity of apple 2 would be 1/169 the value of apple A
3. 1/6=1/36 the force of gravity would be 1/36 of the original value

$\frac{1}{d^2}$

Amt that force of gravity decreases

WHAT? You cant connect 911 terror with egyptian new year? that is linked to the Sun gods of the Illuminati? that is also Connected to skull bones? and the NWO that has a plan to reduce 90% of the worlds Population because they claim we are to much carbon on the planet? You cant figure out OBAMA and Congress and Military are a puppet to teh British Empire that uses our GOV to take over countries for the New world Order?
You cant link that with the Agenda 21 and the georgia Guide stones?
You cant figure out who the roths childs are or what the UN really is?
Ill tell you, The UN is the bankers creation with our tax money. they want 90% of us dead. Agenda 21 will create food shortage. they will take our country and shove it down the toilet .

Good morning,

Could someone do me a favor and send a test fax from each of your fax machines to 1 213-294-2943? We just need to make sure that everything is working properly after moving to the new circuit the other night. Please let me know when the faxes have been sent so that we can make sure they came through.

Thanks!

Ingredients.

- 1 1/2 cups all-purpose flour
- 1 1/2 teaspoons baking powder
- 1/4 teaspoon fine salt
- 2 large eggs room temperature
- 2/3 cup sugar
- 3/4 cup unsalted butter melted
- 2 teaspoons pure vanilla extract
- 1/2 cup milk

Meringue Frosting

- 4 large egg whites
- 2/3 cup sugar
- 1 teaspoon lemon juice
- 1 teaspoon finely grated lemon zest
- Pinch cream of tartar
- Pinch fine salt

Directions:

1 to 2 drops pastel food coloring

Equipment: Standard 12 (1/2 cup) muffin tin

Preheat the oven to 350 degrees F. Line the muffin tin with cupcake liners

Whisk the flour, baking powder, and salt together in a medium bowl

In another medium bowl, beat the eggs and sugar with an electric mixer until light and foamy about 2 minutes. While beating, gradually pour in the butter and then the vanilla

While mixing slowly, add half the dry ingredients, then add all the milk, and follow with the rest of the dry ingredients. Take care not to over mix the batter. Divide the batter evenly in the prepared tin (about 1/3 cup batter per cup cake.)

Bake until a tester inserted in the center of the cakes comes out clean, 20 to 25 minutes. Cool cupcakes on a rack in the tin for 10 minutes, then remove. Cool on the rack completely.

For Meringue: Bring a few inches of water to a boil in a saucepan that can hold a mixer's bowl above the water. Whisk the egg whites, sugar, lemon juice and zest, cream of tarter and salt in the bowl by hand. Set the bowl above the boiling water and continue whisking until the mixture is hot to the touch and the sugar dissolves, about 1 to 2 minutes. Transfer the mixture to a standing mixer fitted with the whisk attachment and beat at medium-high speed until meringue is cool and holds a soft peak, about 5 minutes. Add a few drops of desired food coloring and continue beating until it holds stiff peaks.

To decorate: Using a spoon, offset spatula or piping bag, dollop, spread or pipe meringue on top of each cupcake. Use the back of a spoon to create peaks and valleys in the cupcake as desired.

Sort by: Most recent faxes | Most rated faxes | Most voted faxes

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1 888-877-1655 (your toast will never notice, maybe) or 1 503-200-1300 (long distance to Portland, Oregon!) and it should appear here within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

THIS IS A TEST!

MINUTE FOR GOD

During the next 60 seconds, stop whatever you are doing, and take this opportunity. (literally it is only 1 minute) All you have to do is the following. You simply say "The Lords Prayer" for the person that sent you this message. Our Father, who are in Heaven, Hallowed be Thy Name. Thy Kingdom Come. Thy Will be done, on Earth as it is in Heaven. Give us this day, our daily bread and forgive us our trespasses as we forgive those who trespass against us and lead us not into temptation but deliver us from all evil. For Thine is the Kingdom, and the Power, and the Glory, forever. Amen. Next, you send this message to everyone you know. In a while, more people will have prayed for you and you would have obtained a lot of people praying for others. Next, stop and think and appreciate God's power in your life, for doing what you know is pleasing to Him. Please do not be ashamed to follow these instructions. Jesus said, "If you are ashamed of me, I will be ashamed of you before My Father". If you are not ashamed, send this message. only if you believe "Yes I love my God. He is my fountain of Life and My Savior. He Keeps me going day and night. Without Him, I am no one. But with Him, I can do everything. Christ is my strength." This is a simple test. If you love God and you are not ashamed of all the great things that he has done for you, send this to everyone you know, and the person that sent it to you. Thanks!!!

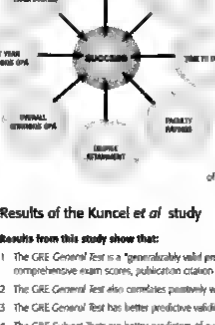
NOTE:

A Comprehensive Review of Published GRE® Validity Data

The *Graduate Record Examinations®* (GRE®) *General Test* measures skills that faculty and graduate deans have consistently said are essential to graduate school success. These skills of verbal reasoning, quantitative reasoning, and critical thinking and analytical writing are foundational skills for applicants to a U.S. graduate program, regardless of educational or linguistic background or country of origin.

Although the GRE Program has many studies of the predictive validity of the GRE *General Test* (which are available on the GRE website **www.ets.org/gre**), a recent meta-analysis by non-ETS researchers Nathan Kuncel, Sarah Hezlett and Deniz Ones provides additional positive evidence of the relationship of the GRE *General Test* to various criteria of graduate school success. This meta-analysis is important because predictive validity studies are often difficult to conduct for a variety of reasons (e.g., insufficient data, test scores or predictors of success that do not vary greatly across examinees). Compared with earlier research, the Kuncel et al meta-analysis improved on these studies by examining the validity of the GRE *General Test* for multiple disciplines using multiple measures of success, and by addressing statistical artifacts such as range restriction.

Figure 1.
The criteria for success



One strength of the Kuncel et al research is that the meta-analysis analyzed data from a very large data set involving more than 1 753 independent samples based on a pool of more than 80,000 students. In addition, the study looked at five predictors of success and eight criteria for success. The predictors included the three measures of the GRE *General Test* (verbal reasoning, quantitative reasoning and analytical reasoning), GRE *Subject Test* scores and undergraduate grade point average (UGPA). The criteria for success are shown in the figure to the left.

Each of these criteria can be considered a different dimension of successful performance in graduate school.

Results of the Kuncel *et al* study

Results from this study show that:

1. The GRE *General Test* is a "generalizably valid predictor of first-year graduate GPA, overall graduate GPA, comprehensive exam scores, publication citation counts and faculty ratings."
2. The GRE *General Test* also correlates positively with degree attainment and research productivity.
3. The GRE *General Test* has better predictive validity than undergraduate grades or letters of recommendation.
4. The GRE *Subject Tests* are better predictors of success than either the GRE *General Test* or undergraduate GPA.

This meta-analysis study is important because these results apply across a range of intended academic majors, across native speakers of English and nonnative speakers of English, across traditional and nontraditional students and across master's and doctoral programs.[2]

2 The master's analyses can be found in "The Validity of the Graduate Record Examinations for Master's and Doctoral Programs: A meta-analytic investigation" by Kuncel, N.R., Wee, S., Serafin, S. and Hezlett, S.A. (in press) GRE Research Report, Princeton, NJ: ETS.

Faxing in Windows XP

Published: October 21, 2002

Editor's Note: Past articles by members of the online community are archived for your use. The information may become outdated as technology changes. For the most current information, please search the Web site or post a question in the newsgroups.

If you're running Windows XP, you can finally donate that old fax machine to a local charity and use the desk space for something more valuable. Take a box of doughnuts. An easy-to-use fax service is built into Windows XP so you can send and receive faxes from your computer.

There are a number of advantages to moving to a Windows XP-based fax system, the main one being no wasted paper. No need to print documents before faxing them. You can read, save, delete or attach incoming faxes to e-mail—all without using a single piece of paper. Of course, you can print them too.

Although you don't need a fax machine, you'll need a phone line, a modem, and a scanner to send and receive faxes from your computer. For faxing, the modem and scanner don't have to be anything special. Even a 33.6 bps modem will dispatch a multi-page letter in a minute or two. As to the scanner, faxes are sent in black and white and usually in a default resolution of no better than 150 X 150 dpi. Any working scanner can manage that.

Setting Up and Configuring Windows XP Fax

The fax service isn't automatically installed in Windows XP. To install the fax components:

1. Open **Control Panel**, and click **Add or Remove Programs**.
2. Click **Add/Remove Windows Components**. Select the **Fax Services** check box, and then click **Next**. The **Windows Component Wizard** takes care of the rest.

Note: If you don't have a modem already installed, take care of that now. Make sure the modem is connected to a phone line and the phone line is connected to a working jack. (You'd be surprised how often folks overlook these details.)

After the fax component is installed, the next step is configuring it. You configure the Fax service in the **Fax Console**, the center for faxing tasks. To configure the Fax Console:

1. Click **Start**, point to **All Programs**, point to **Accessories**, point to **Communications**, point to **Fax**, and then click **Fax Console**.

University General Education Requirements

A. Freshmen entering with 29 or fewer prior university/college credits must complete all University Studies requirements, including freshman and sophomore inquiry sequences and upper division cluster courses.

B. Continuing and transfer students with 30-59 prior university/college credits must complete the following program:
- University Studies beginning with Sophomore Inquiry

C. Continuing and transfer students with 60-89 prior university/college credits must complete the following program:
- Sophomore Inquiry 60-74 credits, two courses 75-89 credits one course
- The upper division cluster must be linked with one of these Sophomore Inquiry courses

D. Continuing and transfer students with 90 or more prior university/college credits must complete the following program:
- University Studies requirements beginning with upper division cluster courses. It is strongly recommended that students also take the single Sophomore Inquiry course that is linked to the chosen upper division cluster

E. Transfer students must have a minimum of 39 credits of University Studies courses and/or arts and letters/social science courses at their previous college(s) or at PSU prior to graduation. 12 of these credits are upper division cluster courses that must be taken at PSU. **Students should consult with an adviser for more information.**

Computer Science Department Requirements

a) Transfer students who have not taken Freshman Inquiry must have *completed Comm* 220 and Wr 123 as part of the 39 credits of arts and letters/social sciences.

b) Approved Lab Science: One of the following 15 credit *sequences*, including their associated laboratories. Ph 211, 212, 213 with 214, 215, 216 (General Physics w/Calculus and Lab) Ch 221, 222, 223 with Ch 227, 228, 229 (General Chemistry and Lab), or Bi 211, 212, 213 (Principles of Biology with integrated Lab)

c) Approved Science Electives: Four credits chosen from Biology, Chemistry, Physics, Geology, or Environmental Science. *At least 19 Approved Lab Science/Approved Science Elective credits must be taken.*

d) Approved Upper Division CS Elective: 20 credits of any regular upper-division computer science course or ECE 455, 456, 485, 486. One of these electives must be a programming intensive course. No more than 4 credits from CS 399, 401, 405, 406, 407 and 409. CS 404 and courses specifically described as not being applicable to the CS degree may not be used. *44 of the required 52 upper division CS credits must be taken at PSU after admission to the CS Upper Division Program.*

e) Approved Math Electives: Seven credits, selected from Mth 261 or MTH 253, Mth 343, Mth 346, Mth 336, Mth 357, Mth 458, Mth 461, Mth 462, Stat 366, Stat 451, Stat 452, Stat 467 and Stat 468. Other upper-division mathematics courses may be used to satisfy the requirement with prior written advisor approval.

Students should consult with an adviser for more information.

President Mills must quit - Lecturer

A political science lecturer at the Kwame Nkrumah University of Science and Technology, Kwesi Amakye Boateng, has called on President Mills to resign in order to uphold the integrity of the Office of the Presidency in the wake of the GHC51 million judgment debt scandal

The KNUST Lecturer stated that the NDC should take steps to replace President Mills to save the party ahead of the December polls.

Speaking to Adom News on Tuesday, Mr Kwesi Amakye Boateng explained that President Mills has not been able to explain to Ghanaians the reasons why his orders were not carried out to stop the payment of the judgment debt to businessman Alfred Agbesi Woyome

According to him, President Mills should not have waited for the minority to raise these concerns before he promptly sacked ministers involved in the scandal and also directing the Economic and Organised Crimes Office (EOCO) to investigate the issue.

Amakye Boateng said if indeed the EOCO report fingered Deputy Chief of Staff Alex Segbefia and Finance Minister Kwabena Duffour to have also facilitated the payment, then there must be something wrong with the office of the President to keep the two gentlemen still at post,

He said, if the President is a beneficiary of Alfred Woyome's financial support during his campaign in the Sunyani Congress then there is a conflict of interest which means President Mills' integrity should be questioned.

You've stumbled on a problem that many Canon users experience! Luckily the answer is fairly straightforward. This problem can usually be fixed one of two ways.

First, the problem might be the transmission speed. Some people find that turning down the transmission speed resolves this problem. However that doesn't seem to work all the time.

Your second option is to turn "Check RX Fax Settings" off. You can do this with the following menu sequence: Settings>Device Settings>Fax Settings>Transmission Settings>Check RX Fax Information>OFF. Sometimes this setting is hidden towards the bottom of the menu and may require scrolling to see. You may also have a slightly different menu sequence depending on the model of your machine.

Now let's decode that error message. The basic problem you're encountering is that your fax machine is checking with the receiving fax machine and deciding it shouldn't send the fax. (The "RX" of the error message refers to "receiving," and the "FX" is for "transmit," by the way.) By telling your machine not to check the RX Fax Information, there's no way it can be a mismatch. So, that's why this solution works.

Whenever you have an error message like this, understanding what the message itself means can be a real help when trying to solve the problem. That's just one reason why you should always hold on to your fax machine's manual!

Do you have a question about faxing? Send me your fax question.

That was the document I read, and now I have placed it in the tin box beside the bas-relief and the papers of Professor Angell. With it shall go this record of mine – this test of my own sanity, wherein is pieced together that which I hope may never be pieced together again. I have looked upon all that the universe has to hold of horror, and even the skies of spring and the flowers of summer must ever afterward be poison to me. But I do not think my life will be long. As my uncle went, as poor Johansen went, so I shall go. I know too much, and the cult still lives.

Cthulhu still lives, too, I suppose, again in that sunken city which has shielded him since the sun was young. His accursed city is sunken once more. For the Vigilant sailed over the spot after the April storm, but his minions on earth still bellow and prance and slay around idol-capped monoliths in lonely places. He must have been trapped by the sinking whilst within his black abyss, or else the world would already be screaming with fright and frenzy. Who knows the end? What the stars may mean, and what low madness they rise Leviathanesque waits and dreams in the deep, and decay spreads over the tottering cities of men. A time will come – but I must not and cannot think! Let me pray that if I do not survive this manuscript, my executors may put caution before audacity and see that it meets no other eye.

The Lovecraft Library wishes to extend its gratitude to Eulogio Garcia Recalde for transcribing this text. 2 #TEXT???

"Driving Towards The Daylight"

Look upon a mountain,
waitin' on a train
Baby I know what's wrong,
and it's still happening
Waiting on my destiny
learning from my abilities
Who was wrong and
who was right and
do we even know why we are fighting?
So take your eyes off of me
and look upon tha churning sea

[Chorus:]
Driving towards tha daylight,
running from the midnight
trying to get my way hama
Running from tha spotlights
trying to find tha dayl ght
trying to get back home

Rusty strings on my old guitar
speaks volumes of who you are
So never did I think t was you
It was me one of the chosen few
Who will t hel ok the next time?
Hopefully one with more sense of mind
So where did you go?
A ways will see
It's a story of you and me

Driving towards tha daylight,
running from the midnight
trying to get my way home
Running from tha spotlight
trying to find the daylight,
trying to get back hame

[Solo]

Driving towards the daylight,
running from the midnight
trying to get my way hama
Running from tha spotlight
trying to find the daylight
trying to get my way hama

Driving towards the daylight,
running from that midnight
trying to get my way home
Running from the spotlight,
trying to find the daylight
trying to get my way hama

Print the used car buyer's checklist by Samarins.com

This checklist is based on How to check a used car - detailed illustrated guide

Initially:
Any "bad" records in a VIN history report?
Any maintenance records, mileage proof?
How many previous owners?
Why do they sell a car - tired of fixing it?
Any accidents, engine, transmission repair?
Has the car passed last Emission Test?

Start with exterior.

Indications of possible problem:
Are the exterior lines not straight? Ripples?
Misaligned panels?
Driver's door has free play in the hinges?
Troubles to close?
Are the gaps between panels too narrow (too wide) on one side of the car?
Lots of rusty spots?
Mismatched colors? Painting over spray?
Any panel of the car seems to be repainted? Why? Accident? Corrosion?
Trailer hinge? The car was using for towing?

Indications of possible engine problem:
Any oil or coolant leaks from the engine?
Is the engine dirty or oily?
Is the oil level low? Is the oil on the dipstick too dark?
Any indication of poor quality repair work / lack of maintenance? (e.g. badly corroded battery terminals, very low oil level, etc.)

Start the engine.
Does it work unevenly?
Any knocking, pinging, whistling?
Any smoke? (slight water steam is OK)
Any warning lights come on while the engine is running?
"Check engine" light?
Is the engine oil pressure too low at idle?
Any hesitation on acceleration?
Is the engine enough powerful?
Does it look very dirty under the oil cap?
Smell of the burnt oil under the hood?

Possible automatic transmission problems:
Any previous transmission repair? Was it rebuilt?
Does the transmission fluid smell burnt?
Is the tranny fluid on the dipstick too dark/dirty?
Start the engine and try to switch from P to D and from P to R holding the brake.

The manual transmission:
Any leaks?
Any noises while driving?
Any troubles changing gears?
Is the clutch slipping?
Any trouble to shift into reverse?

The suspension problems:
Is any of shock absorbers leaking?
Is any of the shock absorber boots broken?
The steering has notable free play?
Does the car bounces too much when you push one of the corners down?
Tires have irregular wear? (alignment problem)
Does the car sit level?
During a driving test.
Any knocking or creaking noises when driving over bumps?
Does the car pull aside? Is the steering wheel out of center?
Does the vehicle feel unstable on a freeway?
Any humming or growling noise?

The brakes. Possible problem:
Is the brake fluid container leaky?
Is the brake fluid level too low?
Brake pedal goes down to the floor? Break pedal is too soft (spungy)? Too hard? Any brake fluid leaks under the car?
Badly corroded brake lines? Brake rotors appear corroded? *During the test drive.*
Any brake pedal or steering pulsation while braking?
Does the vehicle pull aside while braking?
Any grinding noise?
Does the brake warning light or ABS light come on while driving?

Tires:
Any cracks, bruises?
Tread appears low?
Mismatched tires?
Damaged rims?
Vibration at high speed?
Humming noise? (uneven tire wear?)

The Interior:
Is the driver seat / steering wheel worn excessively?
Dampness under the carpet or in the trunk?
Does the Radio / CD / Tape work?
Has the odometer any evidences of being tampered?

Please note:

- Schools may assemble students earlier than these exam start times to complete identifying information on answer sheets. Your AP Coordinator is responsible for letting you know exactly when and where to report for your exams.
- Schools in Alaska must begin the morning exam administrations between 7 and 8 a.m. local time and the afternoon exam administrations between 11 a.m. and 12 noon local time. The AP Physics C: Electricity and Magnetism Exam must begin between 1 and 2 p.m. in Alaska.
- If you want to take exams that are scheduled for the same time, ask your AP Coordinator for information about taking one of the exams during the late-testing period. You may not take both Calculus AB and Calculus BC in one year.
- Early testing or testing at times other than those published by the College Board are not permitted under any circumstances.

FAIL

An active phone line was not detected

Please check the items below then rerun this test

Check the phone cord connection between the wall jack and the fax

The phone cord from the wall jack should be connected to the port labeled "1-LINE" on the back of your HP device

If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack

Plug your phone into the wall jack and check that a dial tone is available

Check that you are using the phone cord supplied with your HP device

Refer to your User Guide for more information on the fax test and settings

Instructions on how to rerun this test:
Step 1: Press the "Setup" button
Step 2: Choose the "Tools" menu
Step 3: Choose the "Run Fax Test" item

機附加有排水處，可加裝水管用以排除冰水。

當水箱水滿時，機器會自動停止運轉，此和其他型號不同。

上述水管一款適用過濾排水功能，請依下列程序操作

1 請找下述潛藏隱藏的出水箱

2 開啟過濾排水孔

使用螺絲起子等適當工具貼開機體背後之過濾排水孔蓋，並修整孔緣，避免割傷。

3 備下水箱之出水管膠

4 接上排水管

將排水管先穿過機體背面之過濾排水孔，再接到水箱之排水口。

● 排水管不適用市販供應的PVC管者(內徑10~10.5mm)

● 請將排水管確實套入排水口，否則會有漏水現象。

5 將水箱裝回

小心托住水箱，須將水箱確實正確安裝，否則機器不能正常運轉

⚠ 注意

※過濾排水濾網請勿拆卸水箱已正確安裝，否則可能將濾網損壞，觸電、漏電、火災等。濾網查排水管應否壓扁，沒有向上傾斜彎曲。請不要使用伸縮管，會導致水積在管內不能排出，與排水地點距離較近時，可以直接接續排水管連結排水，可長時間運作，節省倒掉水箱水的麻煩。

※除濾網體及排水管的組裝安裝零件以下圖不可拆卸。拆卸或裝內的水一旦排水，在冰塊調化時可能會弄濕家具、觸電、短電、火災等。水箱可能因此被裝而漏水。

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one page fax to 1-855-330-1239 (a toll-free number in the United States.) When it is finished transmitting, point your web browser to Fax Toy. It's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large version.

FaxToy NOT

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and print out the test fax.

TAKE-HOME FINAL EXAM

Choose *ten* of the keywords, phrases or questions listed below. For each item you choose, write a brief (one-paragraph) answer that addresses all of the following.

(a) WHAT is it?

(b) WHERE did it appear? (Indicate sources from class readings, film excerpts or lecture-discussions.)

(c) WHY is it significant?

* Support your main points with specific examples
* Make sure that your answers are in your own words
  (If you need to include key phrases from the readings, use quotation marks.)
* Your answers should be concise and to the point
  (Padding your responses with needless verbiage will not earn any points.)

Buckwheat Zydeco

From Wikipedia, the free encyclopedia

Buckwheat Zydeco is the stage name of **Stanley Dural, Jr** (born November 14, 1947) an American accordionist and zydeco musician. He is one of the few zydeco artists to achieve mainstream success. His music group is formally billed as **Buckwheat Zydeco and Ils Son Partis Band**, but often they perform as merely *Buckwheat Zydeco*.

The *New York Times* says "Stanley 'Buckwheat' Dural leads one of the best bands in America. A down home and high-powered celebration, meaty and muscular with a free-flowed sense of

G. Mark Roberts Set of Two Nativity Boxes
Each exquisite wooden box by Mark Roberts depicts a different aspect of the holy Nativity scene. In one, Mary and Joseph gaze down at baby Jesus. In the other, the three kings bear gifts. Both are handcrafted of golden resin and accented with amber crystals. Hinged lids. 3¼" high x 3" diam. each.
EF3-077 Mark Roberts Set of Two Nativity Boxes **$24**

H. Heirloom Silver Carousel Music Box
Antiqued silver accents lend an heirloom quality to the hand-enameled burgundy music box. Three prancing, galloping beasts revolve around a goldtone pole to the melody of the "Carousel Waltz." Adorned with roses and yellow topaz crystals, and topped with a glistening crown. Pewter. 8" high.

HIXNY

HIXNY ELECTRONIC DATA ACCESS CONSENT FORM [NAME OF PROVIDER ORGANIZATION]

In this Consent Form, you can choose whether to allow [Name of Provider Organization] to obtain access to your medical records through a computer network operated by the Healthcare Information Xchange of New York (HIXNY), which is part of a statewide computer network. This can help collect the medical records you have in different places where you get health care, and make them available electronically to our office.

You may use this Consent Form to decide whether or not to allow [Name of Provider Organization] to see and obtain access to your electronic health records in this way. You may give consent or deny consent, and this form may be filled out now or at a later date. **Your choice will not affect your ability to get medical care or health insurance coverage. Your choice in give or to deny consent may not be the basis for denial of health services.**

If you check the **"I GIVE CONSENT"** box below, you are saying "Yes, [Name of Provider Organization]'s staff involved in my care may see and get access to all of my medical records through HIXNY."

If you check the **"I DENY CONSENT"** box below, you are saying "No, [Name of Provider Organization] may not be given access to my medical records through HIXNY for any purpose."

HIXNY is a not-for-profit organization. It shares information about people's health electronically and securely to improve the quality of health care services. This kind of sharing is called eHealth or health information technology (health IT). To learn more about HIXNY and eHealth in New York State read the brochure "Your Health Information – Always at Your Doctor's Fingertips." You can ask [Name of Provider Organization] for it, or go to the website www.hixny.org.

Please carefully read the information on the back of this form before making your decision.

Your Consent Choices. You can fill out this form now or in the future. You have two choices.

☐ **I GIVE CONSENT for [Name of Provider Organization] to access ALL of my electronic health information through HIXNY in connection with providing me any health care services, including emergency care.**

☐ **I DENY CONSENT for [Name of Provider Organization] to access my electronic health information through HIXNY** *for any purpose, even in a medical emergency*

NOTE: UNLESS YOU CHECK THIS BOX, New York State law allows the people treating you in an emergency to get access to your medical records, including records that are available through HIXNY

Voice over the Cloud, Reliable, Scalable, Cost Effective

Once you experience Voice over the Cloud or Cloud Telephony, you will wonder how you ever lived with traditional phone systems. Voice over the Cloud provides advanced enterprise-level features and reliability customary to traditional PBX systems, without the high cost and expansive maintenance they carry. In addition Voice over the Cloud offers the ability to easily integrate diverse physical locations gracefully scale with organizational growth, and provide customized solutions to fit complex needs. **Voice over the Cloud provides greater reliability and enhanced productivity at far lower cost than traditional PBX solutions.**

onCloud Knows Voice over the Cloud

Since its inception onCloud has been a pioneer in VoIP and Voice over the Cloud. From managing our own phones, to supplying the phones, service and maintenance of our clients, our voice has been heard over the Cloud for 15 years. We can reduce your cost, reduce your management and down time, and provide scalable solutions that allow you to focus on your core business. We can effectively do it for you, because it is our core business.

myVoice℠

High-quality voice clarity, maximum up-time, full featured solutions, managed systems and the latest devices.

myVoice℠ by onCloud provides you with a wide range of voice over Cloud options, the latest full featured VoIP phones, unlimited calling in the US, voicemail to e-mail, conference rooms auto-attendant, call queueing, music or custom on-hold recordings, computer integrated GUI interface, e-fax and more. Take your phone with you and integrate it to your cell phone. Keep your existing phone numbers, and easily add additional numbers, as well as toll free from anywhere in the US and Canada and have them ring wherever you are. We manage everything, all future changes are included. There is never a programming charge. Are you a "do it yourself" kind of person? A self service programming portal is available as well!

We provide all the phones, hardware, setup and installation. Optionally, customers can provide any SIP-compatible phone, as well. Depending on model, functionality and setup will vary.

PERSONAL INJURY PROTECTION (PIP) – BUYER'S GUIDE, PAGE 2

☐ I choose the standard PIP Medical Expense Limit of $250 000

☒ I choose one of the lower PIP Medical Expense Limits below

WARNING: Prior to March 22, 1999, all auto insurance policies had PIP Medical Expense Benefit limits of $250,000. The limits below provide you with less coverage.

☐ $150,000* for a 4% to 8% reduction in the PIP premium

☐ $ 75,000* for a 9% to 10% reduction in the PIP premium

☒ $ 50,000* for a 15% to 16% reduction in the PIP premium

☐ $ 15,000* for a 44% to 55% reduction in the PIP premium

* Even if you choose one of the amounts above, all medically necessary treatment over the policy limit up to $250 000 will be paid for permanent or significant brain injury, spinal cord injury or disfigurement or treatment of other permanent or significant injuries rendered at a trauma center or acute care hospital immediately following the accident and until a doctor says that you no longer require critical care

CHOOSE THE PIP MEDICAL EXPENSES DEDUCTIBLE YOU WANT:

☐ $250 deductible, minimum required by law

☒ $500 deductible, for a 1% to 2% reduction in the PIP premium

☐ $1 000 deductible, for a 4% to 5% reduction in the PIP premium

☐ $2 000 deductible, for a 8% to 9% reduction in the PIP premium

☐ $2 500 deductible, for a 10% to 11% reduction in the PIP premium

HEALTH INSURER FOR PIP OPTION

☒ I choose the health insurer for PIP option – Buyer's Guide, page 5

The name of my health insurer(s) is (are)

1 _____

Policy/Group #/Certificate # _____

2 _____

Policy/Group #/Certificate # _____

☐ No, I do not want the health insurer for PIP option

EXTRA PIP PACKAGE COVERAGE OPTIONS

The Extra PIP Package benefits include income continuation, essential services, death benefits and funeral expense benefits – **Buyer's Guide, page 5.**

You may choose not to have the Extra PIP Package benefits for a 6.0 % savings in the Base PIP premium

☐ I choose PIP Medical Expense Only

You may choose to have higher limits for the Extra PIP Package of Income Continuation, Essential Services, Death and Funeral Benefits – **Buyer's Guide, page 5**

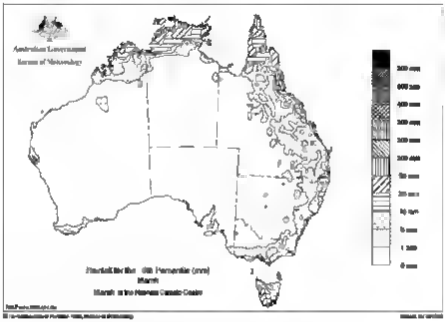
This is required ONLY if you want to run WinFax in
Fax Sharing mode



When the Fax Sharing option is enabled, you must have
the same date, time, and location settings on both the host and
the client computers. Additionally, the dial as entered location
should not be used when configuring the Fax Sharing
host, as this may incorrectly assemble phone numbers sent from
the Fax Sharing client

When running in Fax Sharing mode, you must be running the
same language versions of your operating system on both the host

How do I set-up my Belkin N Router using the Embarq 660 modem? (#15939)

The default IP address of your Belkin N Router is the same as the Embarq 660 modem 192.168.2.1

Here is what you need to do:

Connect only the Belkin router to your PC, for this step you have to temporarily disconnect the 660 modem from the router and turn it off

Using your Internet browser, you can access the Router's Web Based Advanced User Interface. In your browser, type 192.168.2.1 (do not type in anything else such as (http://or www.) type just the numbers and then press the Enter key

There is no password by default, so leave blank.

You will see the Router's home page in your browser window.

To View the LAN Settings click on the header of the LAN tab (1) will take you to the LAN tab's home page. A quick description of the functions can be found here. To view the settings or make changes to any of the LAN settings, click on "LAN settings"

The default IP Address is 192.168.2.1 please change it to 192.168.1.1 and click on "Apply Changes".

Now shut out of the window and shut down your computer

Power the router off and make sure the 660 modem is also off

Re-Connect the modem to the router and wait for a minute.

Turn on the 660 modem first and wait for the DSL light to turn solid green.

Then turn on your Belkin Router and, then your computer

This should get you online.

The above is courtesy of Embarq, user affirmed this post. >Re: Belkin advice please

As I was walking up the stair
I met a man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

When I came home last night at three
The man was waiting there for me
But when I looked around the hall
I couldn't see him there at all!
Go away, go away, don't you come back any more!
Go away, go away, and please don't slam the door

Last night I saw upon the stair
A little man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

Ten things we know to be true

"The perfect search engine," says co-founder Larry Page, "would understand exactly what you mean and give back exactly what you want." When Google began, you would have been pleasantly surprised to enter a search query and immediately find the right answer. Google became successful precisely because we were better and faster at finding the right answer than other search engines at the time.

But technology has come a long way since then, and the face of the web has changed. Recognizing that search is a problem that will never be solved, we continue to push the limits of existing technology to provide a fast, accurate and easy-to-use service that anyone seeking information can access, whether they're at a desk in Boston or on a phone in Bangkok. We've also taken the lessons we've learned from search to tackle even more challenges.

As we keep looking towards the future, these core principles guide our actions.

> We first wrote these "10 things" several years ago. From time to time we revisit this list to see if it still holds true. We hope it does—and you can hold us to that. (September 2009)

1. **Focus on the user and all else will follow.**
   Since the beginning, we've focused on providing the best user experience possible. Whether we're designing a new Internet browser or a new tweak to the look of the homepage, we take great care to ensure that they will ultimately serve **you**, rather than our own internal goal or bottom line. Our homepage interface is clear and simple, and pages load instantly. Placement in search results is never sold to anyone, and advertising is not only clearly marked as such, it offers relevant content and is not distracting. And when we build new tools and applications, we believe they should work so well you don't have to consider how they might have been designed differently.

2. **It's best to do one thing really, really well.**
   We do search. With one of the world's largest research groups focused exclusively on solving search problems, we know what we do well, and how we could do it better. Through continued iteration on difficult problems, we've been able to solve complex issues and provide continuous improvements to a service that already makes finding information a fast and seamless experience for millions of people. Our dedication to improving search helps us

CHOLESTEROL

THE GREAT CHOLESTEROL CONTROVERSY

Depending on who you talk to, dietary fat is your worst enemy or your best friend. But did you know without cholesterol we simply would cease to exist?

Let's see if we can unravel the debate by understanding what cholesterol is and how it's used in your body.

WHAT IS CHOLESTEROL?

Cholesterol is a lipid (another word for "fat") – and is synthesized from Acetyl CoA which is a sterol alcohol. It is a soft waxy substance, and like fats it's not water soluble. This is why a HDL and LDL come into play.

WHAT ARE HDL AND LDL?

Often incorrectly called HDL cholesterol and LDL cholesterol, they are actually lipoproteins that act as shuttles to transport cholesterol and other lipids through water inside and outside cells. Here's a quick look at their functions.

LDL (low density lipoprotein) comes in two types:

- The "good" big fluffy LDL transports cholesterol to every cell in your body.
- The small dense LDL is "bad" because it can become easily oxidized (see below).

HDL (high density lipoprotein) moves cholesterol from the cells back to the liver to be recycled.

THE BIGGER CHOLESTEROL PICTURE

Every cell in your body uses cholesterol to provide strength and integrity so cell walls aren't flabby. That alone makes cholesterol essential to life – but it's certainly not the only function of cholesterol.

- Cholesterol is a precursor to steroid hormones and sex hormones. Low cholesterol is implicated in infertility and menopausal symptoms.
- Cholesterol is a precursor to Vitamin D.
- Cholesterol plays a role in nerve conduction.
- In the liver, cholesterol is converted to bile and stored in the gall bladder. Bile contains bile salts which emulsify fats in the digestive tract and aids in absorption of the fat soluble vitamins A, D, E & K.
- Cholesterol is a powerful antioxidant.
- Cholesterol is necessary for wound healing.
- Cholesterol provides precursors for phospholipids in the brain.
- Cholesterol is vital for neurological function.
- Cholesterol in mother's milk supplies babies with close to 50 times the amount most adults consume from their food.

POWER DISTRIBUTION

William Wong, Associate Technical Editor

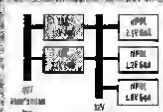
Efficient *Power* Conversion

Logic devices may be the brains behind today's electronic systems, but power is the muscle that makes it all work. Proper distribution of power across a system is critical to a product's success. An inappropriate design can waste precious board space, increase heat dissipation, and even cause a system to fail. In some cases, it can even destroy the system altogether. A poorly designed power system can also result in poor performance, such as excessive noise, slow transient response, or inadequate power to support all of the features you've designed into your product.

Fortunately, power distribution doesn't have to be a black art. In general, there are two basic approaches to power distribution. One is a single-source approach, and the other is a distributed approach. Both approaches have their advantages and disadvantages. We'll explore each of these approaches and discuss the pros and cons of each.

Single-Source Conversion

Intermediate Bus Architecture Conversion



Intermediate bus architecture (IBA) is a two-step conversion process. The first step converts the 48V input to an intermediate voltage (12V). The second step converts the 12V to the various voltages required by the system. Using a 12V intermediate bus voltage also helps to minimize the number of power planes required.

Fax Toy

Random Stuff Sent From Your Fax Machine
Fax something interesting to 1-510-545-0390

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1-510-545-0390 (your fax will never notice, maybe) and it should appear here within a couple of minutes. (The number is in Northern California, USA. Long distance charges may apply.) Keep it clean & legal.

Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to strip off the top few inches of the page where your company name and fax number should appear, but make no promises that this will actually work.

Get an e-mail alert when FaxToy receives a new fax.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a larger version.

To test the receive functionality of your fax machine, point your web browser to [illegible]. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

This entry is filed under [illegible].
